MANAGER'S REPORT

1-3-17

1. We have been in contact with Justin Ritter of the Pennsylvania Game Commission regarding the beaver dam that has been constructed in Barrett's Meadow. We are continuing to monitor the water level that has continued to build as a result of the blockage of the tributary that leads from the tall Trees development.
2. We have finalized all required documents for the dedication of Andover and anticipate recommending that the township take dedication of the public improvements at our next meeting.
3. We are still working with both of the developers of Mill Creek and Greenbriar II to take dedication of those public improvements as well.
4. We received notification from DEP of an assessment that resulted from a site visit in June of 2016. I am recommending that we acknowledge the consent, but not execute the agreement.
5. We held a paint day for children on Tuesday December 27, 2016. There were 17 children that attended. We have an adult paint night scheduled for Thursday February 9, 2017 from 6 to 9:30 PM at Grace Winery.
6. We have a Thornbury Township Jump Night scheduled for Sunday 1-29-17 at the Skyzone for township residents only. That will be held from 2:00 to 3:00 PM.
7. We made contributions to the PA State Police at the end of December. Items that were purchased included Night Vision Goggles, some office equipment, and tool kits. Those items were received by the State Police and they expressed their gratitude to Thornbury Township and the Board of Supervisors.
8. We held a Red Cross Blood Drive on Wednesday 12-21-16. We collected 23 pints of blood, bringing our total collected to over 100 pints though blood drives held in Thornbury Township.
9. We have received three (3) nominations for the Mark Kelly Volunteer of the year award. I am working on scheduling a meeting of the committee so we will be prepared to make the presentation at the Volunteer Recognition dinner on February 12, 2017.
10. We are accepting Christmas trees for drop off at the salt storage shed until Sunday January 8, 2017.
11. We have several openings on boards and commissions as a result of resignations and people not seeking reappointments. We currently have two openings on the Planning Commission and one opening on the Park and Recreation Board.
12. We have scheduled a complete cleaning of the EQ tank at the Sewage Treatment Plant. The work is scheduled for overnight on Thursday night. The work needs to be done when the flow is at a minimum. The grinder pump was replaced last week at Creek Road West, and the core will be returned by DELCORA. We are also working to schedule the replacement of the Bar Screen in mid-January.
