MANAGER'S REPORT

2-1-17

1. We are still looking for a home for the dog that was picked up on January 2, 2017 on Station Road.
2. Alan Strickler is working with the Justin Ritter of the PA Game Commission on relocating the beavers that were discovered in Barrett's Meadow.
3. We received notification from Sunoco that they were planning on doing some survey work within the easement around Andover development. They indicated that they notified the Andover HOA.
4. We received notification from Velocitel that they were scheduling work on the Cell Tower located at the township building. The work they are proposing includes the replacement of several antennas and remote radio heads. Their work will require only electrical permits as the height of the antennas will not be affected.
5. We held a meeting with Ric Miller, Peter Dajevskis and Sue Howat to start getting the Oral History videos that were loaded onto Vimeo available for the general public.
6. Previewed the 2017 Road Program with Lindsey Price and Mike Ciocco to develop list of roads to include.
7. Met with Ric Miller and Rich White to make recommendation for the 2017 Mark Kelly Volunteer of the Year Award. The award is to be presented at the Volunteer appreciation luncheon on Sunday February 12, 2017.
8. I attended an MS4 seminar on 1-19-17 which was sponsored by Delaware County Conservation District and DEP.
9. We have advertised the openings for our boards and commissions as was requested by the Board of supervisors and we have received several e-mails and letters of interest.
10. I received a phone call from Chris Mariani, of Concord Township Wastewater, stating that the Muffin Monster needed to be rebuilt or replaced for the Mill Creek Pump Station. His initial pricing for the rebuilt unit was approximately $12k. I am asking for approval to have this work completed, but will likely not get a firm price until our next meeting.
11. There are two Zoning Hearings scheduled for Monday February 6, 2017. The Board of Supervisors may want to consider having counsel represent the Township as there is a request for an in-law suite proposed to be constructed in a detached building. Our ordinance does permit in-law suites by special exception provided that the living space is part of the main house.
12. We attended a Pipeline Emergency Management meeting sponsored by Delaware County Emergency Management Services.
