MANAGER'S REPORT

4-19-17

1. We held our annual Easter Egg hunt on Saturday April 8. The event was well attended.
2. I attended a pre-construction meeting held by OTIS Engineering. They are the company that is overseeing the Mariner East project for Sunoco Pipeline.
3. I met with Mike Ciocco and Jim Byrne to discuss the response letter regarding the grading permit for Mariner East construction and also to review the Penn DOT HOP permit information that was forwarded from Eric Friedman. We will be issuing letters on both topics.
4. We are currently preparing for a Zoning appeal Hearing to be held on May 1, 2017 regarding permits that the Township issued to Sunoco to do work on their existing valve station. I would ask that the Board of Supervisors approve representation at that hearing on behalf of the Township.
5. We have the annual E-waste collection as well as the Township clean-up day scheduled for this Saturday April 22, 2017.
6. Reminder of the Red Cross Blood Drive scheduled for Thursday April 27, 2017 here at the Township building.
7. The Park and Recreation Committee has a New York City Bus trip scheduled for Saturday May 6, 2017. He have had very little response at this time. We will make a decision on whether or not to cancel the excursion some time next week.
8. We have scheduled a speaker for the Memorial Day service at Thornbury Park. Our guest speaker will be Ray Stankus. Mr. Stankus is a Vietnam War veteran.
9. We have made all of the final arrangements for the Annual Local Government Day and look forward to hosting Rustin Students and staff on Friday April 21, 2017.
10. Most arrangements for Founder's Day, to be held on Saturday June 3, 2017, have been completed.
11. We will start on the rough plumbing work at the Douglass Cottage on Thursday or Friday of this week.
12. We have advertised our financial report as required by state mandate.
