MANAGER'S REPORT

1. I met with Mike Ciocco, Jim Byrne and representatives of the Andover Homeowners Association to discuss the response letter to the Penn DOT HOP permit. Mike Ciocco issued a letter to Penn DOT on May 1, 2017. The HOA intends to include that letter in their submission as an intervenor.
2. We attended the Zoning Appeal Hearing held on May 1, 2017 for permits that the Township issued to Sunoco to do work on their existing valve station. The ZHB denied the appeal, and will issue their opinion within the allotted 45 days.
3. We have responded to an Appeal by Mr. Eric Friedman to the Office of Open Records regarding our partial denial of certain materials that were requested in a right to Know Request dated March 3, 2017.
4. We held the annual E-waste collection on Saturday April 22, 2017. There was over 7000 lbs. of e-waste collected at the event.
5. We held our Red Cross Blood Drive on Thursday April 27, 2017. Many thanks to Geoff Carbutt for his work to arrange this event.
6. The New York City Bus trip scheduled for Saturday May 6, 2017 has been cancelled sure to a lack of interest.
7. The 5th Annual Thornbury Township Dog Show is scheduled for Saturday May 13, 2017.
8. The EAC and Thornbury Historical society are sponsoring a Historic trail hike through Bonner Park with two local historians to view the quarry operations and the old grist mill along Chester Creek. The event is scheduled for Saturday May, 6 from11:00am.
9. We held our Annual Local Government Day for Rustin Students and staff on Friday April 21, 2017. Our original plans were changed and the event was held at Rustin this year. The day was a huge success. I would like to thank our entire staff for their flexibility to rearrange the location.
10. I attended the PSATS annual conference in Hershey. There were several interesting seminars that I attended, topics which included GIS Mapping as well as MS4 renewal.
11. I have had conversation with chip Vaughan regarding the re-location of the corn Crib as part of the Black Bell subdivision development as well as performing a Historic Impact Study.
12. We have received a number of complaints regarding dirt bikes from residents of the Mill Creek sub division. We have notified the State Police as the dirt bikes have been alleged to be ridden on Brinton Lake road.
13. We have finalized all but one outstanding issue for the dedication of the Greenbriar II development. We anticipate having that ready by our next meeting.
14. Cutler has resumed work and has completed nearly all of their outstanding items so we anticipate finalizing dedication shortly after Greenbriar II.
15. We received a proposal from All Season's landscaping to do final grading and hydroseeding at the Treatment Plant for the work associated with the replacement of the Chlorine contact tank. I would recommend that the Board approve the expenditure of $5250.00 to complete this work. The decision to remove that from the base contract represents a savings of approximately $3,000.00.
16. The Sewer Committee has forwarded a request to the Board of Supervisors and have asked the BOS to consider a meeting with Concord Township to discuss future EDU's.
17. Ridley Excavating is scheduled to start on the grading work that the board approved in the late fall of 2016. The work was approved, but weather did not permit completion until now.
18. I am recommending a $2,500 donation for the American Red Cross Clara Barton reception.
