THORNBURY TOWNSHIP
Public Works Department Report – Week Ending September 29, 2017

1. Routine maintenance performed throughout the Township, including mowing all properties.

2. Township Engineer has completed a feasibility study at the request of the Township Manager to convert the salt storage building into a maintenance building and build a salt igloo on the stone parking area. See Township Engineerôs Report.

   Seeking approval from the Board of Supervisors to bid package together as structure only -- Phase One. In the alternative, bid the package for complete build.

3. Historical Society Room -- Obtaining pricing from cleaning company to clean (including windows) entire area prior to laying the carpet. Obtaining pricing for HVAC for the hallway and bathrooms. Some structural repairs remain to be completed along with installing insulation on exterior walls.

4. Preparing for fishing derby and fall festival.

5. Met with PennDOT at Dilworthtown, Westtown and Thornton Road intersection. Marked out, signs ordered and placed call to PA One Call for installation.
