Fix Placerville's Roads & Pipes?.... *Say* "L Yes!"

THE PROBLEM

Placerville's roads are falling apart. We are losing 25% of our water and our sewer pipes are leaking. There is not enough money to fix and maintain them for the future. In fact, we are **$45.5 million behind in critical repairs** to our roads & sewer/water systems.

THE SOLUTION ... MEASURE L

- **All of the money** will pay for the **repair/maintenance of Placerville's roads and our sewer/water system**.
- The money **cannot be diverted** for any other purpose.
- The money will be **used only inside the Placerville city limits**.
- The money **CANNOT be used to build roads for new development**!
- This measure will **end in 20 years**.
- A **citizen oversight committee** will make sure the money is used correctly.

YES on Measure L

IF YOU DON'T APPROVE MEASURE L ...

- **In 10 years** , the **average condition of Placerville's roads will be FAILED**.
- We will **continue to have water leaks and sewer spills** triggering costly fines.
- When public health is threatened, **emergency repairs will be much more costly**, and there will be **NO money for road repair and replacement**.
