5. Department/Annual Reports:

*Information Technology*

1) Amy Kaup provided a brief synopsis on her department’s work activities and reviewed the report that was included in the agenda packet.

*Finance:*

2) Roxie Hamilton distributed and reviewed the November 30, 2011 financial statements that were included in the agenda packet.

3) The Finance Director and County Administrator reviewed the letter the County received from the Department of Workforce Development on the Special Assessment the County will be charged in 2012, 2013 and 2014 for the interest that the State of Wisconsin is paying to the Federal Government on money that was borrowed to meet the State’s unemployment claims obligation. The Finance Director explained that the County protested the assessment and declined to pay it. This assessment is authorized under State Statutes but the County has never been assessed before. The County currently pays unemployment claims as they are filed and does not pay a pro-rated amount into the fund like other employers. This letter was received after the 2012 budget was adopted and the State has advised the County that this will be collected over the next several years. This has not been budgeted in the 2012 budget. The County also received an assessment in August 2011 and it was paid after the State pressed the issue and research determined that the County did have to pay under existing Statutes.
