Park Maintenance Updates: Estimates were received in regard to the property damage received as a result of the tornado. It was discussed as to whether or not it would be advantageous to repair/rebuild the group shelter, or if it would be better to build a new structure in a more suitable location as the group shelter is not often reserved/used. Management will find out if the existing structure will still be covered under the liability policy if the repairs are not performed.

The fish cleaning station counter tops need to be replaced and management will look into purchasing stainless steel or granite counters or having something custom made with more durable material.

A permit application and plans for a new cabin will be submitted to the DNR. Our local development agent has warned that the process may be lengthy and approval is not guaranteed.

New Business: A letter received from M. Gabel was presented to the commission. A response will be drafted to let her know her requests were presented, but that no action will be taken.

The DNR Forestry Division will be harvesting the pines in the damaged plantations to prevent an invasive beetle and to utilize the wood for lumber and pulp.
The next scheduled meeting will take place at the park office on September 10, 2014 at 7 pm.

Motion for adjournment made by Glen Gard, seconded by Bret Barr. Motion carried by unanimous vote.
