**Agenda Item: Approval of New Program for 2015 – Transient Non-Community Well Inspections.**

Director Pritchett explained that Iowa County has 55 wells that fall into this category. She is proposing that the Iowa County Health Department enter into a contractual agreement with Wisconsin DNR to conduct Wisconsin Administrative Code 809 inspections. This would involve routine water quality monitoring annually on each well plus 20% of wells would annually undergo a sanitary inspection (every 5 years for each well). Lafayette and Vernon Counties have already entered into similar agreements with WDNR. Training for Health Department employees would be held in November (for Jenny, Kari, and Ann). The Health Department would receive income of $130 per inventoried system plus $70 per system for sanitary inspections. Jenny distributed copies of a draft contract agreement between WDNR and a contracted Health Department and suggested that our Corporation Counsel should view the contract for approval.

The benefits of entering into this program would include providing a means for the Health Department to be more involved in Environmental Health, would help to improve Iowa County’s statewide ranking among Health Departments, and would provide a source of revenue to the Department.

Parman moved and Lindholm seconded a motion to approve this proposal contingent on the Iowa County Corporation Counsel’s approval. Motion carried.

**Agenda Item: Propose Price Increase – Private Pay Influenza Vaccine for 2014-2015.**

Jenny proposed increasing the price for the private pay (out of pocket cost) for the quadrivalent influenza vaccines as the cost of this vaccine has increased by $5.00. The current charge is $30/dose and she is proposing increasing the charge to $35/dose. This amount is in line with what many other counties charge for this vaccine. The Health Department currently delivers approximately 400 private doses annually. Note that in some cases $25 of the price may be reimbursed by Medicare or private health insurance to some clients. Howard moved and Pittz seconded a motion to increase the fee to $35/dose. Motion carried.
