Re: 2016 Racial Profiling Report

Mayor Paradise,

I am pleased to present the 2016 Racial Profiling Report for the Pantego Police Department. I am also pleased to report that, as in past reports, the data was successfully analyzed by Dr. Alex del Carmen of Del Carmen Consulting, LLC.

As you are aware, Dr. del Carmen has advised many law enforcement agencies in Texas including Austin and the Texas Department of Public Safety. He is one of the first scholars in the United States that conducted and published studies on racial profiling. He is regarded as an “authority” on this topic and has participated in national, state, and local seminars discussing topics relevant to racial profiling.

I am also reporting that the department did not receive any justifiable complaints based upon racial profiling in 2016. The department will continue to monitor all complaints of any nature that we receive with the intent of improving the public’s trust in our officers. This report will be posted on the Town website beginning on March 1, 2017.

Respectfully,

A handwritten signature in blue ink that reads "Thomas Griffith". The signature is written in a cursive, flowing style.

Pantego Town Council  
1614 S. Bowen Road  
Pantego, Texas 76013

Dear Distinguished Members of the Town Council,

The Texas Legislature, with the intent of addressing the issue of racial profiling in policing, enacted in 2001 the Texas Racial Profiling Law. Since then, the Pantego Police Department, in accordance with the law, has collected and reported traffic and motor vehicle-related contact data for the purpose of identifying and addressing (if necessary) areas of concern regarding racial profiling practices. In the 2009 Texas legislative session, the Racial Profiling Law was modified and additional requirements are now in place. These most recent requirements have been incorporated by the Pantego Police Department and are also being addressed in this report.

This particular report contains three sections with information on traffic and motor vehicle-related contact data. In addition, when appropriate, documentation is also a component of this report, aiming at demonstrating the manner in which the Pantego Police Department has complied with the Texas Racial Profiling Law. In section 1, you will find the table of contents in addition to the Texas Senate Bill (SB1074); which later became the Texas Racial Profiling Law. In addition, you will find the Texas HB 3389, which, in 2009, introduced new requirements relevant to racial profiling. Also, in this section, a list of requirements relevant to the Racial Profiling Law as established by TCOLE (Texas Commission on Law Enforcement) is included. In addition, you will find, in sections 2 and 3 documentation which demonstrates compliance by the Pantego Police Department relevant to the requirements as established in the Texas Racial Profiling Law. That is, you will find documents relevant to the implementation of an institutional policy banning racial profiling, the incorporation of a racial profiling complaint process and the training administered to all law enforcement personnel.

The last section of this report provides statistical data relevant to contacts, made during the course of motor vehicle stops, between 1/1/16 and 12/31/16. In addition, this section contains the TCOLE Tier 1 form, which is required to be submitted to this particular organization by March 1<sup>st</sup> of each year. The data in this report has been analyzed and compared to data derived from the U.S. Census Bureau's Fair Roads Standard. The final analysis and recommendations are also included in this report. The findings in this report serve as evidence of the Pantego Police Department's commitment to comply with the Texas Racial Profiling Law.

Sincerely,

Alex del Carmen, Ph.D.

# TCOLE GUIDELINES

## Guidelines for Compiling and Reporting Data under Senate Bill 1074

### Background

Senate Bill 1074 of the 77<sup>th</sup> Legislature established requirements in the Texas Code of Criminal Procedure (TCCP) for law enforcement agencies. The Commission developed this document to assist agencies in complying with the statutory requirements.

The guidelines are written in the form of standards using a style developed from accreditation organizations including the Commission on Accreditation for Law Enforcement Agencies (CALEA). The standards provide a description of *what* must be accomplished by an agency but allows wide latitude in determining *how* the agency will achieve compliance with each applicable standard.

Each standard is composed of two parts: the standard statement and the commentary. The *standard statement* is a declarative sentence that places a clear-cut requirement, or multiple requirements, on an agency. The commentary supports the standard statement but is not binding. The commentary can serve as a prompt, as guidance to clarify the intent of the standard, or as an example of one possible way to comply with the standard.

### Standard 1

Each law enforcement agency has a detailed written directive that:

- clearly defines acts that constitute racial profiling;
- strictly prohibits peace officers employed by the agency from engaging in racial profiling;
- implements a process by which an individual may file a complaint with the agency if the individual believes a peace officer employed by the agency has engaged in racial profiling with respect to the individual filing the complaint;
- provides for public education relating to the complaint process;
- requires appropriate corrective action to be taken against a peace officer employed by the agency who, after investigation, is shown to have engaged in racial profiling in violation of the agency's written racial profiling policy; and
- requires the collection of certain types of data for subsequent reporting.

### Commentary

Article 2.131 of the TCCP prohibits officers from engaging in racial profiling, and article 2.132 of the TCCP now requires a written policy that contains the elements listed in this standard. The article also specifically defines a law enforcement agency as it applies to this statute as an "agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make traffic stops in the routine performance of the officers' official duties."

The article further defines race or ethnicity as being of "a particular descent, including Caucasian, African, Hispanic, Asian, or Native American." The statute does not limit the required policies to just these ethnic groups.

This written policy is to be adopted and implemented no later than January 1, 2002.

## **Standard 2**

Each peace officer who stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic, or who stops a pedestrian for any suspected offense reports to the employing law enforcement agency information relating to the stop, to include:

- a physical description of each person detained, including gender and the person's race or ethnicity, as stated by the person, or, if the person does not state a race or ethnicity, as determined by the officer's best judgment;
- the traffic law or ordinance alleged to have been violated or the suspected offense;
- whether the officer conducted a search as a result of the stop and, if so, whether the person stopped consented to the search;
- whether any contraband was discovered in the course of the search, and the type of contraband discovered;
- whether probable cause to search existed, and the facts supporting the existence of that probable cause;
- whether the officer made an arrest as a result of the stop or the search, including a statement of the offense charged;
- the street address or approximate location of the stop; and
- whether the officer issued a warning or citation as a result of the stop, including a description of the warning or a statement of the violation charged.

## **Commentary**

The information required by 2.133 TCCP is used to complete the agency reporting requirements found in Article 2.134. A peace officer and an agency may be exempted from this requirement under Article 2.135 TCCP Exemption for Agencies Using Video and Audio Equipment. An agency may be exempt from this reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds. Section 2.135 (a)(2) states, "the governing body of the county or municipality served by the law enforcement agency, in conjunction with the law enforcement agency, certifies to the Department of Public Safety, not later than the date specified by rule by the department, that the law enforcement agency needs funds or video and audio equipment for the purpose of installing video and audio equipment as described by Subsection (a) (1) (A) and the agency does not receive from the state funds for video and audio equipment sufficient, as determined by the department, for the agency to accomplish that purpose."

## **Standard 3**

The agency compiles the information collected under 2.132 and 2.133 and analyzes the information identified in 2.133.

## **Commentary**

Senate Bill 1074 from the 77<sup>th</sup> Session of the Texas Legislature created requirements for law enforcement agencies to gather specific information and to report it to each county or municipality served. New sections of law were added to the Code of Criminal Procedure regarding the reporting of traffic and pedestrian stops. Detained is defined as when a person stopped is not free to leave.

Article 2.134 TCCP requires the agency to compile and provide and analysis of the information collected by peace officer employed by the agency. The report is provided to the governing body of the municipality or county no later than March 1 of each year and covers the previous calendar year.

There is data collection and reporting required based on Article 2.132 CCP (tier one) and Article 2.133 CCP (tier two).

The minimum requirements for “tier one” data for traffic stops in which a citation results are:

- 1) the race or ethnicity of individual detained (race and ethnicity as defined by the bill means of “a particular descent, including Caucasian, African, Hispanic, Asian, or Native American”);
- 2) whether a search was conducted, and if there was a search, whether it was a consent search or a probable cause search; and
- 3) whether there was a custody arrest.

The minimum requirements for reporting on “tier two” reports include traffic and pedestrian stops. Tier two data include:

- 1) the detained person’s gender and race or ethnicity;
- 2) the type of law violation suspected, e.g., hazardous traffic, non-hazardous traffic, or other criminal investigation (the Texas Department of Public Safety publishes a categorization of traffic offenses into hazardous or non-hazardous);
- 3) whether a search was conducted, and if so whether it was based on consent or probable cause;
- 4) facts supporting probable cause;
- 5) the type, if any, of contraband that was collected;
- 6) disposition of the stop, e.g., arrest, ticket, warning, or release;
- 7) location of stop; and
- 8) statement of the charge, e.g., felony, misdemeanor, or traffic.

Tier one reports are made to the governing body of each county or municipality served by the agency an annual report of information if the agency is an agency of a county, municipality, or other political subdivision of the state. Tier one and two reports are reported to the county or municipality not later than March 1 for the previous calendar year beginning March 1, 2003. Tier two reports include a comparative analysis between the race and ethnicity of persons detained to see if a differential pattern of treatment can be discerned based on the disposition of stops including searches resulting from the stops. The reports also include information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling. An agency may be exempt from the tier two reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds [See 2.135 (a)(2) TCCP].

Reports should include both raw numbers and percentages for each group. Caution should be exercised in interpreting the data involving percentages because of statistical distortions caused by very small numbers in any particular category, for example, if only one American Indian is stopped and searched, that stop would not provide an accurate comparison with 200 stops among Caucasians with 100 searches. In the first case, a 100% search rate would be skewed data when compared to a 50% rate for Caucasians.

#### **Standard 4**

If a law enforcement agency has video and audio capabilities in motor vehicles regularly used for traffic stops, or audio capabilities on motorcycles regularly used to make traffic stops, the agency:

- adopts standards for reviewing and retaining audio and video documentation; and
- promptly provides a copy of the recording to a peace officer who is the subject of a complaint on written request by the officer.

#### **Commentary**

The agency should have a specific review and retention policy. Article 2.132 TCCP specifically requires that the peace officer be promptly provided with a copy of the audio or video recordings if the officer is the subject of a complaint and the officer makes a written request.

#### **Standard 5**

Agencies that do not currently have video or audio equipment must examine the feasibility of installing such equipment.

## **Commentary**

None

### **Standard 6**

Agencies that have video and audio recording capabilities are exempt from the reporting requirements of Article 2.134 TCCP and officers are exempt from the reporting requirements of Article 2.133 TCCP provided that:

- the equipment was in place and used during the proceeding calendar year; and
- video and audio documentation is retained for at least 90 days.

## **Commentary**

The audio and video equipment and policy must have been in place during the previous calendar year. Audio and video documentation must be kept for at least 90 days or longer if a complaint has been filed. The documentation must be retained until the complaint is resolved. Peace officers are not exempt from the requirements under Article 2.132 TCCP.

### **Standard 7**

Agencies have citation forms or other electronic media that comply with Section 543.202 of the Transportation Code.

## **Commentary**

Senate Bill 1074 changed Section 543.202 of the Transportation Code requiring citations to include:

- race or ethnicity, and
- whether a search of the vehicle was conducted and whether consent for the search was obtained.

# The Texas Law on Racial Profiling

S.B. No. 1074

AN ACT

relating to the prevention of racial profiling by certain peace officers.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Chapter 2, Code of Criminal Procedure, is amended by adding Articles 2.131 through 2.138 to read as follows:

Art. 2.131. RACIAL PROFILING PROHIBITED. A peace officer may not engage in racial profiling.

Art. 2.132. LAW ENFORCEMENT POLICY ON RACIAL PROFILING. (a) In this article:

(1) "Law enforcement agency" means an agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make traffic stops in the routine performance of the officers' official duties.

(2) "Race or ethnicity" means of a particular descent, including Caucasian, African, Hispanic, Asian, or Native American descent.

(b) Each law enforcement agency in this state shall adopt a detailed written policy on racial profiling. The policy must:

(1) clearly define acts constituting racial profiling;

(2) strictly prohibit peace officers employed by the agency from engaging in racial profiling;

(3) implement a process by which an individual may file a complaint with the agency if the individual believes that a peace officer employed by the agency has engaged in racial profiling with respect to the individual;

(4) provide public education relating to the agency's complaint process;

(5) require appropriate corrective action to be taken against a peace officer employed by the agency who, after an investigation, is shown to have engaged in racial profiling in violation of the agency's policy adopted under this article;

(6) require collection of information relating to traffic stops in which a citation is issued and to arrests resulting from those traffic stops, including information relating to:

and

(B) whether a search was conducted and, if so,

whether the person detained consented to the search; and

(7) require the agency to submit to the governing body of each county or municipality served by the agency an annual report of the information collected under Subdivision (6) if the agency is an agency of a county, municipality, or other political subdivision of the state.

(c) The data collected as a result of the reporting requirements of this article shall not constitute prima facie evidence of racial profiling.

(d) On adoption of a policy under Subsection (b), a law enforcement agency shall examine the feasibility of installing video camera and transmitter-activated equipment in each agency law enforcement motor vehicle regularly used to make traffic stops and transmitter-activated equipment in each agency law enforcement motorcycle regularly used to make traffic stops. If a law enforcement agency installs video or audio equipment as provided by this subsection, the policy adopted by the agency under Subsection (b) must include standards for reviewing video and audio documentation.

(e) A report required under Subsection (b)(7) may not include identifying information about a peace officer who makes a traffic stop or about an individual

who is stopped or arrested by a peace officer. This subsection does not affect the collection of information as required by a policy under Subsection (b)(6).

(f) On the commencement of an investigation by a law enforcement agency of a complaint described by Subsection (b)(3) in which a video or audio recording of the occurrence on which the complaint is based was made, the agency shall promptly provide a copy of the recording to the peace officer who is the subject of the complaint on written request by the officer.

(2) "Pedestrian stop" means an interaction between a peace officer and an individual who is being detained for the purpose of a criminal investigation in which the individual is not under arrest.

(b) A peace officer who stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic or who stops a pedestrian for any suspected offense shall report to the law enforcement agency that employs the officer information relating to the stop, including:

(1) a physical description of each person detained as a result of the stop, including:

(A) the person's gender; and

(B) the person's race or ethnicity, as stated by the person or, if the person does not state the person's race or ethnicity, as determined by the officer to the best of the officer's ability;

(2) the traffic law or ordinance alleged to have been violated or the suspected offense;

(3) whether the officer conducted a search as a result of the stop and, if so, whether the person detained consented to the search;

(4) whether any contraband was discovered in the course of the search and the type of contraband discovered;

(5) whether probable cause to search existed and the facts supporting the existence of that probable cause;

(6) whether the officer made an arrest as a result of the stop or the search, including a statement of the offense charged;

(7) the street address or approximate location of the stop;  
and

(8) whether the officer issued a warning or a citation as a result of the stop, including a description of the warning or a statement of the violation charged.

(b) A law enforcement agency shall compile and analyze the information contained in each report received by the agency under Article 2.133. Not later than March 1 of each year, each local law enforcement agency shall submit a report containing the information compiled during the previous calendar year to the governing body of each county or municipality served by the agency in a manner approved by the agency.

(c) A report required under Subsection (b) must include:

(1) a comparative analysis of the information compiled under Article 2.133 to:

(A) determine the prevalence of racial profiling by peace officers employed by the agency; and

(B) examine the disposition of traffic and pedestrian stops made by officers employed by the agency, including searches resulting from the stops; and

(2) information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling.

(d) A report required under Subsection (b) may not include identifying information about a peace officer who makes a traffic or pedestrian stop or about an individual who is stopped or arrested by a peace officer. This subsection does not affect the reporting of information required under Article 2.133(b)(1).

(e) The Commission on Law Enforcement Officer Standards and Education shall develop guidelines for compiling and reporting information as required by this article.

(f) The data collected as a result of the reporting requirements of this article shall not constitute prima facie evidence of racial profiling.

Art. 2.135. EXEMPTION FOR AGENCIES USING VIDEO AND AUDIO EQUIPMENT. (a) A peace officer is exempt from the reporting requirement under Article 2.133 and a law enforcement agency is exempt from the compilation, analysis, and reporting requirements under Article 2.134 if:

(1) during the calendar year preceding the date that a report under Article 2.134 is required to be submitted:

(A) each law enforcement motor vehicle regularly used by an officer employed by the agency to make traffic and pedestrian stops is equipped with video camera and transmitter-activated equipment and each law enforcement motorcycle regularly used to make traffic and pedestrian stops is equipped with transmitter-activated equipment; and

(B) each traffic and pedestrian stop made by an officer employed by the agency that is capable of being recorded by video and audio or audio equipment, as appropriate, is recorded by using the equipment; or

(2) the governing body of the county or municipality served by the law enforcement agency, in conjunction with the law enforcement agency, certifies to the Department of Public Safety, not later than the date specified by rule by the department, that the law enforcement agency needs funds or video and audio equipment for the purpose of installing video and audio equipment as described by Subsection (a)(1)(A) and the agency does not receive from the state funds or video and audio equipment sufficient, as determined by the department, for the agency to accomplish that purpose.

(b) Except as otherwise provided by this subsection, a law enforcement agency that is exempt from the requirements under Article 2.134 shall retain the video and audio or audio documentation of each traffic and pedestrian stop for at least 90 days after the date of the stop. If a complaint is filed with the law enforcement agency alleging that a peace officer employed by the agency has engaged in racial profiling with respect to a traffic or pedestrian stop, the agency shall retain the video and audio or audio record of the stop until final disposition of the complaint.

(c) This article does not affect the collection or reporting requirements under Article 2.132.

Art. 2.136. LIABILITY. A peace officer is not liable for damages arising from an act relating to the collection or reporting of information as required by Article 2.133 or under a policy adopted under Article 2.132.

Art. 2.137. PROVISION OF FUNDING OR EQUIPMENT. (a) The Department of Public Safety shall adopt rules for providing funds or video and audio equipment to law enforcement agencies for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), including specifying criteria to prioritize funding or equipment provided to law enforcement agencies. The criteria may include consideration of tax

effort, financial hardship, available revenue, and budget surpluses. The criteria must give priority to:

(1) law enforcement agencies that employ peace officers whose primary duty is traffic enforcement;

(2) smaller jurisdictions; and

(3) municipal and county law enforcement agencies.

(b) The Department of Public Safety shall collaborate with an institution of higher education to identify law enforcement agencies that need funds or video and audio equipment for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A). The collaboration may include the use of a survey to assist in developing criteria to prioritize funding or equipment provided to law enforcement agencies.

(c) To receive funds or video and audio equipment from the state for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), the governing body of a county or municipality, in conjunction with the law enforcement agency serving the county or municipality, shall certify to the Department of Public Safety that the law enforcement agency needs funds or video and audio equipment for that purpose.

(d) On receipt of funds or video and audio equipment from the state for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), the governing body of a county or municipality, in conjunction with the law enforcement agency serving the county or municipality, shall certify to the Department of Public Safety that the law enforcement agency has installed video and audio equipment as described by Article 2.135(a)(1)(A) and is using the equipment as required by Article 2.135(a)(1).

SECTION 5. Section 1701.402, Occupations Code, is amended by adding Subsection (d) to read as follows:

(d) As a requirement for an intermediate proficiency certificate, an officer must complete an education and training program on racial profiling established by the commission under Section 1701.253(e).

(6) whether a search of the vehicle was conducted and whether consent for the search was obtained;

(7) the plea, the judgment, and whether bail was forfeited;

(8) [~~(7)~~] the date of conviction; and

## **(II) Responding to the Law**

# **Institutional Policy on Racial Profiling**

	<b>PANTEGO POLICE DEPARTMENT</b>	
	<b>Policy 2.2 Racial Profiling and Biased Based Policing</b>	
	<b>Effective Date: 08/24/2015</b>	<b>Replaces: 02/01/2014</b>
	<b>Approved:</b>  Chief of Public Safety	
	<b>Reference: TBP 2.01</b>	

### I. PURPOSE

The purpose of this order is to reaffirm the Town of Pantego Police Department’s commitment to unbiased policing in all its encounters with any person; to reinforce procedures that serve to ensure public confidence and mutual trust through the provision of services in a fair and equitable fashion; and to protect our officers from unwarranted accusations of misconduct when they act within the dictates of departmental policy and the law.

### II. POLICY

We are committed to a respect for constitutional rights in the performance of our duties. Our success is based on the respect we give to our communities, and the respect members of the community observe toward law enforcement. To this end, we shall exercise our sworn duties, responsibilities, and obligations in a manner that does not discriminate on the basis of race, sex, gender, national origin, ethnicity, age, religion or any other identifiable group. Respect for diversity and equitable enforcement of the law are essential to our mission.

All enforcement actions shall be based on the standards of reasonable suspicion or probable cause as required by the Fourth Amendment to the U. S. Constitution and by statutory authority. In all enforcement decisions, officers shall be able to articulate specific facts, circumstances, and conclusions that support probable cause or reasonable suspicion for arrests, searches, seizures, and stops of individuals. Officers shall not stop, detain, arrest, search, or attempt to search anyone based solely upon the person's race, ethnic background, sex, gender, national origin, ethnicity, age, religion or any other identifiable group.

Nothing in this order limits non-enforcement contacts between officers and the public.

This Policy is adopted in compliance with the requirements of Articles 2.131 through 2.138, Texas Code of Criminal Procedure, which prohibits Texas peace officers from engaging in racial profiling.

### III. DEFINITIONS

Most of the following terms appear in this policy statement. In any case, these terms appear in the larger public discourse about alleged biased enforcement behavior and in other orders.

- A. Bias: Prejudice or partiality based on preconceived ideas, a person's upbringing, culture, experience, or education.
- B. Biased policing: Stopping, detaining, searching, or attempting to search, or using force against a person based upon his or her race, ethnic background, gender, sexual orientation, religion, economic status, age, cultural group, or any other identifiable group.
- C. Ethnicity: A cluster of characteristics that may include race but also cultural characteristics or traits that are shared by a group with a common experience or history.
- D. Motor Vehicle Contact – Any contact with an individual who may be subject to arrest or issuance of a citation and who is occupying a motor vehicle or is associated with a motor vehicle that may be subject to search subsequent to the person's arrest, irrespective of whether or not the vehicle is on a public roadway or on private property.
- E. Motor Vehicle Stop - means an occasion in which a peace officer stops a motor vehicle for an alleged violation of a law or ordinance and issues a citation or an arrest is made.
- F. Probable cause: Facts or apparent facts and circumstances within an officer's knowledge and of which the officer had reasonable, trustworthy information to lead a reasonable person to believe that an offense has been or is being committed, and that the suspect has committed it.
- G. Race: A category of people of a particular descent, including Caucasian, African, Hispanic, Asian, Middle Eastern, or Native American descent. As distinct from ethnicity, race refers only to physical characteristics sufficiently distinctive to group people under a classification.
- H. Racial profiling: A law-enforcement initiated action based on an individual's race, ethnicity, or national origin rather than on the individual's behavior or on information identifying the individual as having engaged in criminal activity.
- I. Reasonable suspicion: Articulable, objective facts that lead an experienced officer to suspect that a person has committed, is committing, or may be about to commit a crime. A well-founded suspicion is based on the totality of the circumstances and does not exist unless it can be articulated. Reasonable suspicion supports a stop of a person. Courts require that stops based on reasonable suspicion be "objectively reasonable."
- J. Sex: A biological classification, male or female, based on physical and genetic characteristics.
- K. Stop: An investigative detention. The detention of a subject for a brief period of time, based on reasonable suspicion.

#### IV. PROCEDURES

## A. General responsibilities

1. Officers are prohibited from engaging in bias-based profiling or stopping, detaining, searching, arresting, or taking any enforcement action including seizure or forfeiture activities, against any person based solely on the person's race, ethnic background, gender, sexual orientation, religion, economic status, age, cultural group, or any other identifiable group. These characteristics, however, may form part of reasonable suspicion or probable cause when officers are seeking a suspect with one or more of these attributes. (TBP: 2.01)
2. Investigative detentions, traffic stops, arrests, searches, and property seizures by officers will be based on a standard of reasonable suspicion or probable cause in accordance with the Fourth Amendment of the U.S. Constitution. Officers must be able to articulate specific facts and circumstances that support reasonable suspicion or probable cause for investigative detentions, traffic stops, arrests, nonconsensual searches, and property seizures. Except as provided in number 3 below, officers shall not consider race/ethnicity in establishing either reasonable suspicion or probable cause. Similarly, except as provided below, officers shall not consider race/ethnicity in deciding to initiate even those nonconsensual encounters that do not amount to legal detentions or to request consent to search.
3. Officers may take into account the reported race or ethnicity of a specific suspect or suspects based on trustworthy, locally relevant information that links a person or persons of a specific race/ethnicity to a particular unlawful incident(s). Race/ethnicity can never be used as the sole basis for probable cause or reasonable suspicion. Except as provided above, race/ethnicity Reasonable suspicion or probable cause shall form the basis for any enforcement actions or decisions. Individuals shall be subjected to stops, seizures, or detentions only upon reasonable suspicion that they have committed, are committing, or are about to commit an offense. Officers shall document the elements of reasonable suspicion and probable cause in appropriate reports.
4. Officers shall observe all constitutional safeguards and shall respect the constitutional rights of all persons.
  - a. As traffic stops furnish a primary source of bias-related complaints, officers shall have a firm understanding of the warrantless searches allowed by law, particularly the use of consent. How the officer disengages from a traffic stop may be crucial to a person's perception of fairness or discrimination.
  - b. Officers shall not use the refusal or lack of cooperation to justify a search of the person or vehicle or a prolonged detention once reasonable suspicion has been dispelled.
5. All personnel shall treat everyone with the same courtesy and respect that they would have others observe to department personnel. To this end, personnel are reminded that the exercise of courtesy and respect engenders a future willingness to cooperate with law enforcement.

6. When feasible, personnel shall offer explanations of the reasons for enforcement actions or other decisions that bear on the individual's well-being unless the explanation would undermine an investigation or jeopardize an officer's safety.
7. When concluding an encounter, personnel shall thank him or her for cooperating.
8. Upon initial contact, when feasible, all personnel shall identify themselves by name. When a person requests the information, personnel shall give their name, departmental identification number, and name of their immediate supervisor.
9. All personnel are accountable for their actions. Personnel shall justify their actions when required.

#### B. Supervisory responsibilities

1. Supervisors shall be held accountable for the observance of constitutional safeguards during the performance of their duties. Supervisors shall identify and correct instances of bias in the work of their subordinates.
2. Supervisors shall use the disciplinary mechanisms of the department to ensure compliance with this order and the constitutional requirements of law enforcement.
3. Supervisors shall be mindful that in accounting for the actions and performance of subordinates, supervisors are the key to maintaining community trust in law enforcement. Supervisors shall continually reinforce the ethic of impartial enforcement of the laws, and shall ensure that personnel, by their actions, maintain the community's trust in law enforcement.
4. Supervisors are reminded that biased enforcement of the laws engenders not only mistrust of law enforcement, but increases safety risks to personnel. Lack of control over bias also exposes the department to liability consequences.
5. Supervisors shall be held accountable for repeated instances of biased enforcement by their subordinates.
6. Supervisors shall ensure that all enforcement actions are duly documented per departmental policy. Supervisors shall ensure that all reports show adequate documentation of reasonable suspicion and probable cause, if applicable.
7. Supervisors shall facilitate the filing of any complaints about law- enforcement service.

#### C. Training (TBP: 2.01)

Officers shall complete all training required by state law regarding bias- based profiling.

### V. COMPLAINT PROCESS

- A. No person shall be discouraged, intimidated or coerced from filing a complaint, or be discriminated against because they have filed a complaint.

- B. Any person who believes that a peace officer employed by the Pantego Police Department has engaged in racial profiling or biased policing with respect to that person, may file a complaint in accordance with the provisions of Policy 2.4, Internal Investigation Process.
- C. Citizens who appear in person wishing to file a complaint shall be provided with a departmental brochure, "How to File a Complaint." Brochures are maintained in the Pantego Police Department lobby, and at Pantego Town Hall. Citizens may also be directed to the Town website to file a complaint.

# **Complaint Process: Informing the Public and Addressing Allegations of Racial Profiling Practices**

## **Informing the Public on the Process of Filing a Racial Profiling Complaint with the Pantego Police Department**

The Texas Racial Profiling Law requires that police agencies provide information to the public regarding the manner in which to file a racial profiling complaint. In an effort to comply with this particular component, the Pantego Police Department launched an educational campaign aimed at informing the public on issues relevant to the racial profiling complaint process.

The police department made available, in the lobby area and on its web site, information relevant to filing a complaint on a racial profiling violation by a Pantego Police officer. It is believed that through these efforts, the community has been properly informed of the new policies and the complaint processes relevant to racial profiling.

# **Racial Profiling Training**

Since 2002, all Pantego Police officers have been instructed, as specified in the Texas Racial Profiling Law, to adhere to all Texas Commission on Law Enforcement (TCOLE) training and the Law Enforcement Management Institute of Texas (LEMIT) requirements. To date, all sworn officers of the Pantego Police Department have completed the TCOLE basic training on racial profiling. The main outline used to train the officers of Pantego has been included in this report.

It is important to recognize that the Chief of the Pantego Police Department has also met the training requirements, as specified by the Texas Racial Profiling Law, in the completion of the LEMIT program on racial profiling. The satisfactory completion of the racial profiling training by the sworn personnel of the Pantego Police Department fulfills the training requirement as specified in the Education Code (96.641) of the Texas Racial Profiling Law.

## **2.0 RACIAL PROFILING AND THE COMMUNITY**

**2.1 UNIT GOAL: The student will be able to identify logical and social arguments against racial profiling.**

**2.1.1 LEARNING OBJECTIVE: The student will be able to identify logical and social arguments against racial profiling.**

A. There are appropriate reasons for unusual traffic stops (suspicious behavior, the officer's intuition, MOs, etc.), but police work must stop short of cultural stereotyping and racism

B. Racial profiling would result in criminal arrests, but only because it would target all members of a race randomly – the minor benefits would be far outweighed by the distrust and anger towards law enforcement by minorities and the public as a whole

C. Racial profiling is self-fulfilling bad logic: if you believed that minorities committed more crimes, then you might look for more minority criminals, and find them in disproportionate numbers

D. Inappropriate traffic stops generate suspicion and antagonism towards officers and make future stops more volatile – a racially-based stop today can throw suspicion on tomorrow's legitimate stop

E. By focusing on race, you would not only be harassing innocent citizens, but overlooking criminals of all races and backgrounds – it is a waste of law enforcement resources

### **3.0 RACIAL PROFILING VERSUS REASONABLE SUSPICION**

**3.1 UNIT GOAL: The student will be able to identify the elements of both inappropriate and appropriate traffic stops.**

**3.1.1 LEARNING OBJECTIVE: The student will be able to identify elements of a racially motivated traffic stop.**

A. Most race-based complaints come from vehicle stops, often since race is used as an inappropriate substitute for drug courier profile elements

B. "DWB" – "Driving While Black" – a nickname for the public perception that a Black person may be stopped solely because of their race (especially with the suspicion that they are a drug courier), often extended to other minority groups or activities as well ("Driving While Brown," "Flying While Black," etc.)

C. A typical traffic stop resulting from racial profiling

1. The vehicle is stopped on the basis of a minor or contrived traffic violation which is used as a pretext for closer inspection of the vehicle, driver, and passengers
2. The driver and passengers are questioned about things that do not relate to the traffic violation

3. The driver and passengers are ordered out of the vehicle

4. The officers visually check all observable parts of the vehicle

5. The officers proceed on the assumption that drug courier work is involved by detaining the driver and passengers by the roadside

6. The driver is asked to consent to a vehicle search – if the driver refuses, the officers use other procedures (waiting on a canine unit, criminal record checks, license-plate checks, etc.), and intimidate the driver (with the threat of detaining him/her, obtaining a warrant, etc.)

**3.1.2 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which would constitute reasonable suspicion of drug courier activity.**

A. Drug courier profile (adapted from a profile developed by the DEA)

1. Driver is nervous or anxious beyond the ordinary anxiety and cultural communication styles
2. Signs of long-term driving (driver is unshaven, has empty food containers, etc.)
3. Vehicle is rented
4. Driver is a young male, 20-35
5. No visible luggage, even though driver is traveling
6. Driver was over-reckless or over-cautious in driving and responding to signals
7. Use of air fresheners

B. Drug courier activity indicators by themselves are usually not sufficient to justify a stop

**3.1.3 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which could constitute reasonable suspicion of criminal activity.**

A. Thinking about the totality of circumstances in a vehicle stop

B. Vehicle exterior

1. Non-standard repainting (esp. on a new vehicle)
2. Signs of hidden cargo (heavy weight in trunk, windows do not roll down, etc.)
3. Unusual license plate suggesting a switch (dirty plate, bugs on back plate, etc.)
4. Unusual circumstances (pulling a camper at night, kids' bikes with no kids, etc.)

C. Pre-stop indicators

1. Not consistent with traffic flow
2. Driver is overly cautious, or driver/passengers repeatedly look at police car
3. Driver begins using a car- or cell-phone when signaled to stop
4. Unusual pull-over behavior (ignores signals, hesitates, pulls onto new street, moves objects in car, etc.)

D. Vehicle interior

1. Rear seat or interior panels have been opened, there are tools or spare tire, etc.
2. Inconsistent items (anti-theft club with a rental, unexpected luggage, etc.)

### Motor Vehicle Contacts and Households (Percentages) 2016

# Analysis and Interpretation of Data

In 2001, the Texas legislature passed Senate Bill 1074 which became the Texas Racial Profiling Law. That is, the law came into effect on January 1, 2002 and required all police departments in Texas, to collect traffic-related data and report this information to their local governing authority by March 1<sup>st</sup> of each year. In 2009, the racial profiling law was modified to include the collection and reporting of all motor vehicle related contacts where a citation was issued or arrest made. In addition, the modification to the law further requires that all police officers indicate whether or not they knew the race or ethnicity of the individual before detaining them. Further, it is required that agencies report motor vehicle related data to their local governing authority and to the Texas Commission on Law Enforcement (TCOLE) by March 1st of each year. The purpose in collecting and presenting this information is to determine if police officers in a particular municipality are engaging in the practice of racially profiling minority motorists.

The Texas Racial Profiling Law also requires police departments to interpret motor vehicle-related data. Even though most researchers would probably agree with the fact that it is within the confines of good practice for police departments to be accountable to the citizenry while carrying a transparent image before the community, it is very difficult to determine if individual police officers are engaging in racial profiling, from a review and analysis of aggregate/institutional data. In other words, it is challenging for a reputable researcher to identify specific “individual” racist behavior from aggregate-level “institutional” data on traffic or motor vehicle-related contacts.

As stated previously, in 2009, the Texas Legislature passed House Bill 3389, which modified the existing Racial Profiling Law by adding new requirements; this took effect on January 1st, 2010. These most recent changes include, but are not exclusive of, the re-definition of a contact to include motor vehicles where a citation was issued or an arrest made. In addition, it requires police officers to indicate if they knew the race or ethnicity of the individual before detaining them. Also, the more recent law requires adding "middle eastern" to the racial and ethnic category and submitting the annual data report to TCOLE before March 1st of each year. I am pleased to inform you that these additional requirements have been addressed, since 2009, by the Pantego Police Department as it is demonstrated throughout this report.

In an effort to comply with The Texas Racial Profiling Law, the Pantego Police Department commissioned the analysis of its 2016 motor vehicle contact data. Thus, two different types of data analyses were performed. The first of these involved a careful evaluation of the 2016 motor vehicle-related data. This particular analysis measured, as required by the law, the number and percentage of Caucasians, African Americans, Hispanics, Asians, Native Americans, Middle Easterners and individuals belonging to the “other” category, that came in contact with the police in the course of a motor vehicle related contact, and were either issued a citation or arrested. Further, the analysis included information relevant to the number and percentage of searches (table 1) while indicating the type of search performed (i.e., consensual or

probable cause). Also, the data analysis included the number and percentage of individuals who, after they came in contact with the police for a motor vehicle-related reason, were arrested.

The additional data analysis performed was based on a comparison of the 2016 motor vehicle contact data with a specific baseline. When reviewing this particular analysis, it should be noted that there is disagreement, in the literature, regarding the appropriate baseline to be used when analyzing motor vehicle-related contact information. Of the baseline measures available, the Pantego Police Department opted to adopt, as a baseline measure, the Fair Roads Standard. This particular baseline is based on data obtained through the U.S. Census Bureau (2010) relevant to the number of households that have access to vehicles while controlling for the race and ethnicity of the heads of households.

It is clear that census data presents challenges to any effort made at establishing a fair and accurate racial profiling analysis. That is, census data contains information on all residents of a particular community, regardless of the fact they may or may not be among the driving population. Further, census data, when used as a baseline of comparison, presents the challenge that it captures information related to city residents only. Thus, excluding individuals who may have come in contact with the Pantego Police Department in 2016 but live outside city limits. In some cases, the percentage of the population that comes in contact with the police but lives outside city limits represents a substantial volume of all motor vehicle-related contacts made in a given year.

Since 2002, several civil rights groups in Texas expressed their desire and made recommendations to the effect that all police departments should rely, in their data analysis, on the Fair Roads Standard. This source contains census data specific to the number of “households” that have access to vehicles. Thus, proposing to compare “households” (which may have multiple residents and only a few vehicles) with “contacts” (an individual-based count). This, in essence, constitutes a comparison that may result in ecological fallacy. Despite this, the Pantego Police Department made a decision that it would use this form of comparison (i.e., census data relevant to households with vehicles) in an attempt to demonstrate its “good will” and “transparency” before the community. Thus, the Fair Roads Standard data obtained and used in this study is specifically relevant to the Dallas Fort-Worth Metroplex (DFW).

#### Tier 1 (2016) Motor Vehicle-Related Contact Analysis

When analyzing the Tier 1 data collected in 2016, it was evident that most motor vehicle-related contacts were made with Caucasian drivers. This was followed by African American and Hispanic drivers. With respect to searches, most of them were performed on African American drivers. This was followed by Caucasians and Hispanics. It is important to note that the arrest data revealed that African American drivers were arrested the most in motor vehicle-related contacts; this was followed by Caucasians and Hispanics.

#### Fair Roads Standard Analysis

The data analysis of motor vehicle contacts to the census data relevant to the number of “households” in DFW who indicated, in the 2010 census, that they had access to vehicles,

produced interesting findings. Specifically, the percentage of individuals of African American and Hispanic descent that came in contact with the police was higher than the percentage of African American and Hispanic households in DFW that claimed, in the 2010 census, to have access to vehicles. With respect to Caucasians and Asians, a lower percentage of contacts were detected. That is, the percentage of Caucasian and Asian drivers that came in contact with the police in 2016 was lower than the percentage of Caucasian and Asian households in DFW with access to vehicles.

### Summary of Findings

The comparison of motor vehicle contacts showed that the Pantego Police Department came in contact (in motor vehicle-related incidents) with a smaller percentage of Caucasian and Asian drivers than the percentage that resided in DFW and had access to vehicles. Further, the data suggested that the percentage of African American and Hispanic drivers that came in contact with the police in 2016 was higher than the percentage of African American and Hispanic households in DFW with access to vehicles. In addition, the data showed that in a large number of instances, officers did not know the race or ethnicity of individuals before detaining them, when compared to instances where officers knew the race/ethnicity of individuals before they were detained.

While considering the findings made in this analysis, it is recommended that the Pantego Police Department should continue to collect and evaluate additional information on motor vehicle contact data (i.e., reason for probable cause searches, contraband detected) which may prove to be useful when determining the nature of the contacts police officers are making with all individuals; particularly with African Americans and Hispanics. Although this additional data may not be required by state law, it is likely to provide insights regarding the nature and outcome of all motor vehicle contacts made with the public.

As part of this effort, the Pantego Police Department is also encouraged to:

- 1) Perform an independent search analysis on the search data collected in the first quarter of 2017.
- 2) Commission data audits in 2017 in order to assess data integrity; that is, to ensure that the data collected is consistent with the data being reported.

The Pantego Police Department has, once again, complied with the Texas Racial Profiling Law.
