MARK YOUR CALENDAR!

The Town Council approved Ordinance 17-798 on January 9th which changed the requirements for parking motor homes, campers, boats and trailers in residential areas. This ordinance replaces the previous version, which was enacted in 2011, and required that such vehicles be parked where they are not visible from the street. That ordinance had been suspended while the Council worked to resolve concerns about its implementation.

The new ordinance allows for the parking of motor homes, campers, boats and trailers on the side or rear of a home, including on a driveway, where they may be visible from the street. They are still prohibited from parking on a driveway in front of the home. It also requires that they be parked on an all weather surface, and not be closer than five (5) feet from the property line. The ordinance does allow such vehicles to be parked in the driveway for periods of less than seventy-two (72) hours for loading and unloading purposes. Another feature is that homeowners may apply for an exclusion if the configuration of your home does not allow for you to park your vehicle on the side or rear yards. Homeowners have until July 9th to apply. This exclusion applies for the duration of the time that you own/reside in your home.

For more information regarding the implementation of this ordinance, please do not hesitate to contact Town Hall at (817) 617-3700.
