

Local Author Book Donations/Purchases, and Book Signings Policy

Donations/Purchases

If a local author chooses to donate their book(s) (self-published or otherwise), there will be no guarantee it will be added to the library's collection. Staff will consider the donation according to the library's Collection Development policy rules for acquisitions and donations. Local/area authors who drop in to sell copies of their books cannot expect a meeting with the Director and the library is under no obligation to purchase their materials.

Book Signings

Authors that wish to host a book signing can plan to host their own event and reserve a meeting room if available. The library will not be under obligation to promote it as a library sponsored event.
