

Resolution No. 2-0910

Whereas, from time to time Iowa County is presented with opportunities to achieve cost containment in purchasing and procurement of goods and services with a short response timeline; and

Whereas, limited authority vested in the County Administrator or the Administrative Services Committee may facilitate a rapid response to procurement opportunities of such goods and service; and

Whereas, purchasing/procurement actions taken from a Contingency Account by the Administrator or the Administrative Services Committee must be subsequently approved by the County Board ex post facto; and

Whereas, W§ 66.0901 and Iowa County Board Resolutions #1-0402 and # 4-698 provides for limitations in procurement and purchasing for public projects subject to public bid laws and cost containment opportunities that occur in smaller projects may not have limitations, but frequently present reduced time lines for required response;

Now Therefore Be It Resolved that the County Board of Iowa County does hereby establish advance procurement authority vested in the County Administrator and/or Administrative Services Committee when the benefit to the County may be missed ; and

Be It Further Resolved that this purchasing/procurement authority from Contingency without prior approval is limited to \$10,000 for the Administrator and \$25,000 for the Administrative Services Committee; and

Be It Further Resolved that specific purchasing/procurement events under this authority require subsequent approval from the County Board at the next regularly scheduled meeting (subject to posting time limitations) and the County Board shall require a current fiscal year budget adjustment to authorize action:

Adopted this 21st day of September, 2010.
