INFORMATION REGARDING THE 2018 CRUISE SHIP SCHEDULE
Updated 12/07/17

Attached is the draft 2018 cruise ship schedule with berth assignments. There will be a meeting from 1:00 pm to 2:00 pm on December 14, 2017, in the City Council Chambers in order to meet with members of the public, downtown merchants, tour operators, etc. to discuss how the berth assignments were prepared and answer questions on expectations for the upcoming season.

The following are some of the highlights from the 2018 cruise ship schedule:

- The first ship will arrive May 3 and the last ship will depart September 29.
- The overall weekly schedule during the height of the season is very similar to the last few seasons. Mondays, Thursdays and Fridays are still the busiest days, while Tuesdays, Wednesdays, Saturdays and Sundays are a bit slower but not by much.
- The Golden Princess is re-entering the Alaskan market and will take the voyages of the Coral Princess, which will remain in the Alaskan market and continue to call in Ketchikan but on a different itinerary than last season.
- The Westerdam is returning to the Alaskan market and will take the voyages of the Zaandam. The Zaandam is taking the voyages of the Amsterdam which will in turn take the voyages of the Oosterdam which is leaving the Alaskan market.
- The Crystal Symphony is replacing the Crystal Serenity.
- The Norwegian Bliss will be entering the Alaskan market and taking the voyages of the Norwegian Jewel. The Jewel in turn will take the voyages of the Norwegian Sun, which is leaving the Alaskan market. One major impact is that the Sun used to fit on Berth II on Saturdays with the Disney Wonder at Berth I; however the Jewel is 117 feet longer than the Sun and will not fit on Berth II with the Disney Wonder at Berth I. The Jewel will call at Berth III instead.
- Based on a projected lower berth count of 971,736 and historical data, the total number of passengers in 2018 is expected to be in the neighborhood of 1,020,000, which would be slightly more than the 2017 record of 1,007,600.

The projected passenger distribution between the four berths is as follows: Berth I 23.4%, Berth II 22.3%, Berth III 30.5% and Berth IV 23.8%. While we had hoped to better level the percentages between the Berths, the physical characteristics of some of the ships resulted in Berth III having more than the other three berths.
