---

Hi there, Rebecca, and congrats on Measure L having such a victorious result! I wonder whether you could give me a few sentences , thanking the voters, etc., by the end of today? Also, when would folks expect to see the first shovels turning on roads, water and sewer projects paid for with funding specifically from Measure L? And is there a certain project that is No. 1, ready to get going as soon as the funding mechanism is in place? The oversight committee, when will that be chosen and if someone wants to serve on that body, how would they go about that? As always, please feel free to add absolutely anything else you would like to see in the story, which will run in Friday's paper. I'm asking Cleve and Wendy Thomas to comment, too, but is there anyone else you think would like to say something to our readers? I'm so glad the public was tuned in! Pat

Hi Pat!

Thank you! City staff is so excited and honored that the citizens of Placerville have expressed their confidence in our abilities to address the needs of the City's infrastructure and we're looking forward to delivering the vast improvements this sales tax measure will make possible. Thank you, Placerville!

In addition to the list of critical projects presented under the Prop 1 application at the 10/25/16 council meeting, we have identified a number of streets and pipes that need our attention. City Staff is finalizing the prioritized list of projects and we will be presenting this list to Council in public hearing format at a future meeting. It's important to note that the sales tax doesn't go into effect until April 1st, 2017 and the City would then receive it's first advance payment from the State around late June/July of 2017.

Regarding the oversight committee, I'll defer to Cleve and Council's recommendations. Our Measure H citizen oversight committee has served the citizens well in providing logical and objective review of the City's proposed projects, making proactive recommendations as needed.

I'm sure there's a list of folks from the Residents for Measure L Committee that could provide great comments, Wendy has the list of all the amazing individuals who donated their time, energy, money, and hearts towards promoting and passing this measure. We are so lucky to have so many residents that care about our beloved Placerville and to have them truly support the City's efforts only makes staff want to work even harder for our community. From the bottom of my heart, thank you, Placerville. We won't let you down.

Best Regards,

Rebecca Neves, P.E., QSD/P

Hi Pat,

Sorry for the late email, but just wanted to say thank you for continuing to write such great articles that show the true progress the City is trying to make for our community. And a huge thank you to the Mountain Democrat for supporting Measure L. We couldn't have done it without you all.

Best Regards and L yes!  
Rebecca
