DISCRIPTION OF SECTIONS TO CHOOSE (Attach appropriate section form)

Select **one** of the following methods to meet the requirements.

Section C. MATERIALS WASTE MANAGEMENT PLAN: (includes self haul)

California Green Code, Section 4.408.2 Submit a waste management plan, with supporting documents, that creates waste separation at the job site to recycle **75%** of construction materials and prevent minimum recyclable construction materials from going to the waste handling facilities at El Dorado Disposal Services.

Section D. MATERIALS WASTE MANAGEMENT COMPANY:

California Green Code, Section 4.408.3 A waste management company that collects all mixed construction debris on the jobsite and is transported to the El Dorado Disposal Services C & D facilities to recycle **75%** of the materials. Ed Dorado Disposal will provide verifiable documentation.

Section E. WASTE STREAM REDUCTION ALTERNATIVE:

California Green Code, Section 4.408.1.3 A waste management plan (form) that is only **3.4** lb/sq. ft. of construction waste going to the El Dorado Disposal Services facilities. (Used only for new construction) El Dorado Disposal will provide verifiable documentation.
