Honorable Mayor and City Councilmembers of the City of Placerville

Re: Fiscal Year 2011-2012 Budget Message

Dear Mayor Machado and Councilmembers:

I present to you the proposed operating budget for the City of Placerville for the Fiscal Year 2011-2012. Because this is my first year in Placerville, I have chosen to continue the current budget process with very few changes. In the coming years that may change as we look at ways to be more open, transparent and informative in our budget process. The budget document should be a tool used to educate our citizens.

The budget format is similar to last year's in that it again addresses revenues and expenditures on a departmental basis, as well as on a division/activity basis. This produces a more comprehensive document and allows the user to more readily identify revenues and expenditures on a department-by-department basis. The proposed budget continues to identify workload indicators for each department, by division thereof, as the foundation for the departmental expenditures.

The process in developing a proposed budget involves the Budget Team (comprised of the department heads) meeting as a group on several occasions and reviewing each department's ongoing annual expenditures, Capital Outlay requests and Alternative Service Levels requests. These requests are measured against each department's goals and objectives and ultimately the Council's identified goals. The requests are then prioritized, and the requests included in the proposed budget are arrived at through consensus only after lengthy and critical analysis. However, because of the severe economic times that we are and have been experiencing, many goals and objectives are just not fiscally achievable.

Priorities are established by consideration of Council directives and goals (including the results of the March Goal Setting Workshop), revenue generation, cost efficiency, health and safety, critical staffing needs, cost recovery, project delivery and improved public service and efficiency. Previous operating budget line item expenditures are reviewed with each department head and modified where warranted by past history.

For the Fiscal Year 2011-2012 budget, staff entered the process knowing that while expenses for the Fiscal Year 2010-2011 were actually slightly under budget, revenues were also below budgeted amounts. Through conservative spending and monitoring of all revenues and expenditures, we have maintained a balanced budget and only used a minimal amount of contingency. However, again this year, there is no surplus to carry over into the 2011-2012 fiscal year. Such surpluses have been traditionally used to fund Capital Outlay requests and partially fund Capital Improvement projects.

Because there is no surplus to carry over, this year's General Fund budget expenditures include minimal Capital Outlay requests, such as a police vehicle, funded primarily by an Indian Gaming Grant. Also similar to the last fiscal year's budget, there is no funding for Community Promotions.

This year's proposed budget as presented also reflects certain assumptions. Sales tax revenues were projected to increase by 5.36% in 2010-2011. However, actual estimates to-date show an estimated .74% increase in sales tax. Based on state projections, as well as actual receipts through the first quarter of 2011, sales tax revenues are conservatively projected to increase by 4.80%, or \$140,402. The proposed budget reflects projected increases in health insurance, including medical, dental and vision. The budget continues the temporary change from full-exposure personnel cost budgeting to anticipated personnel costs based on actual employee trends. As a result, the Fiscal Year 2011-2012 General Fund Budget is \$6,361,457, or 1.26% less than the Fiscal Year 2010-2011 adopted budget.

In order to achieve a balanced budget, the proposed budget continues the 10% Mandatory Time Off personnel cost savings plan. The City also continues to realize savings through early retirements and use of Retired Annuitants to fill staffing gaps. Several new cost saving or revenue enhancement measures are also included in this year's budget. These include: elimination of rented storage space, re-amortization of PERS side funds, increase in fingerprint fee, proposed tow franchise program. Additional line item savings were realized in various areas including travel and training, which have been eliminated, except for mandatory training and reimbursable training. Mandated cost reimbursements are included in the amount of \$6,400.

Additional budget adjustments are being reviewed but are not included in the current proposed budget. These include: a new dental benefits program, changes to the chiropractic program, plan check review process, dispatch service, SRO program and janitorial services. The proposed budget also does not include any personnel salary increases either as a result of cost of living adjustments or the compensation and classification study. Finally, the budget does include a modest contingency in the amount of \$75,000.

Included with this document is the budget for both the Water Enterprise Fund and the Sewer Enterprise Fund. The budgets for these two enterprise funds are based on a full year of the recently adopted water and wastewater rates. In addition, with the passage of Measure H, changes are proposed to the Wastewater budget. A reduction in revenue from utility rates is shown with an offsetting increase in revenue from Measure J. In addition, the budget includes a minimum \$200,000 per year for Capital Improvements. This will greatly enhance our ability to complete deferred maintenance projects. Alternate Service Levels for these funds include: an Engineering Intern to assist with water and sewer mapping needs, and the transfer of a maintenance worker from the Corporation Yard to the Water Reclamation Facility to fill a need there.

Of major concern at this time is our Measure J fund. Measure J provides funding for salary and benefits for public safety employees. A few years ago, the fund was healthy and provided sufficient revenues for the required expenditures. For the past four years, the fund has operated in a deficit, using Measure J reserves to cover the deficit. The reserve is close to being exhausted and therefore new measures must be taken to protect the fund and police services. Staff has applied for a grant to protect one police officer position that may need to be laid off if revenues do not improve. If we receive the grant, the deficit in Measure J would be reduced to approximately \$42,330. In addition, we are working with our school district partners to explore options to fund the School Resource Officer position. This funding could help to eliminate the deficit. At this time, we are monitoring the fund through October 1, 2011, and will be prepared with additional recommendations at that time. It is our hope that through these efforts we can balance the Measure J fund.

The result is a balanced budget for all funds, with the exception of Measure J, which maintains necessary and essential public services. Staff feels the proposed budget reflects a reduction in expenditures necessitated by difficult economic times without compromising essential program delivery or vital public services. However, if further cuts are necessary, services levels will probably be impacted. A lot of uncertainty still exists with the State budget. In particular are two funding sources, COPS funding and Sheriff's Booking Fees. These two funding sources amount to approximately \$175,000. Should the State not continue funding these two programs, we will need to look at additional cuts to balance the budget.

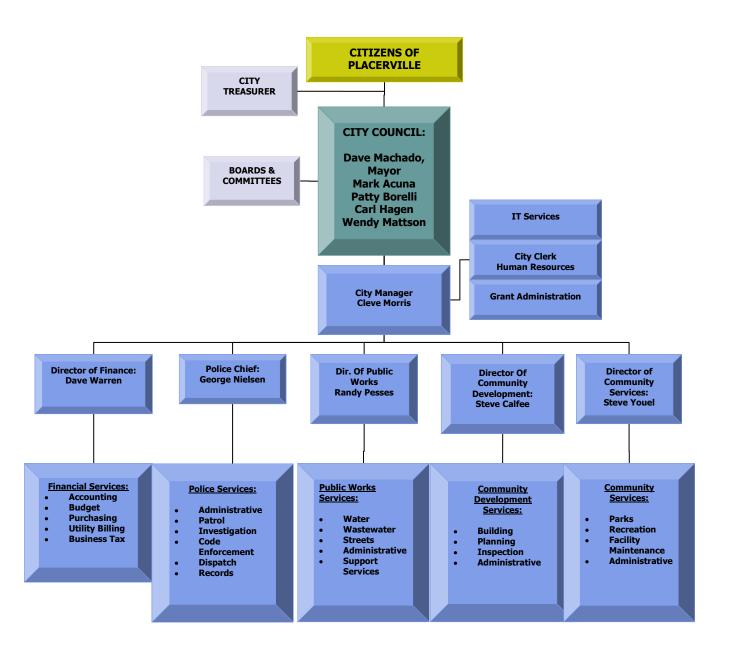

The budget process is designed to achieve a balanced budget by providing for the best use of the taxpayers' dollars while maintaining services in fiscally constrained years. This year, as in the last two years, the budget will be continually scrutinized. Because of the uncertainty of sales tax revenues, all revenues and expenses will have to be closely monitored and adjustments made accordingly throughout the fiscal year. Staff is committed to keeping the City on a fiscally sound basis while maintaining all essential services to the public.

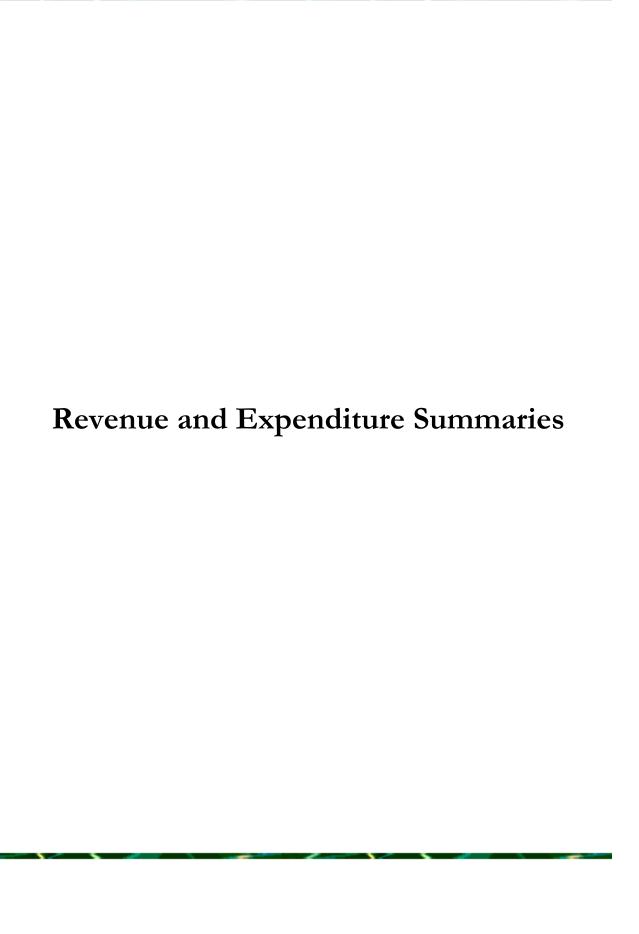

I would like to thank our Budget Team for their hard work and effort in achieving this balanced budget. I especially thank Dave Warren and his staff for their work in preparing the budget. And finally, I thank the Council for their support and continued diligence in providing quality, efficient service to the public.

Very truly yours,

M. Cleve Morris City Manager City of Placerville
