I. The Commission makes the following findings:

- A. The request is exempt from environmental review pursuant to §15301(a) of the California Environmental Quality Act, which permits the restoration and maintenance of an existing residence.*
- B. The project site, located at 2845 Pleasant Street, with APN 002-011-35, contains two structures that are located within the Bedford – Clay Street Residential Historic District, but these structures are not listed in the City's Historic Resources Inventory, the State Register of Historic Places, or the National Register of Historic Places.*
- C. The increased cost to restore or replace with like materials is excessive.*
- D. The use of vinyl windows as proposed will not be differentiated from the current wood by the casual observer.*

- F. The request is consistent with Criteria 8. Community Design, of the Site Plan Review Ordinance (§10-4-9), in that the request is found to be consistent with the goals and policies established in the Community Design Element of the General Plan.*
- G. That the Secretary of Interior Standards and Guidelines are recommendations and do not require mandatory compliance.*
- H. The request was reviewed and is consistent with the purpose, intent and criteria of Zoning Ordinance §10-4-9: Site Plan Review, and §10-4-10: Historical Buildings in the City, that are intended to protect the integrity of the Residential Historic District and individual structures located therein.*

The approval of the site plan review shall expire and become null and void eighteen (18) months after the date of approval unless a building permit has been obtained for any building thereon before the date of expiration. Should the building permit expire for any building thereon, then the site plan review approval shall also simultaneously expire. The Planning Commission may grant a one year extension for the project if the applicant makes such a request and pays a new fee prior to the expiration date.
