b. Nothing herein shall preclude a towing operator from storing its towing vehicles and equipment at another location outside the boundaries of the Township, provided it has exhausted all of its available space within the Township. The minimum required towing apparatus shall be maintained within the required distance of Township of Nutley as stated in paragraph a, conforming to all state laws, local ordinances, and zoning regulations.

c. All towing operators shall have a storage facility. In this respect, a towing operator shall immediately respond to any type of towing, emergency road service, or storage call with the appropriate vehicle and/or equipment within twenty (20) minutes after receipt of telephone notification from the Township Police Department. Unless heavy or unusual traffic conditions or inclement weather within the Township prevents a towing operator from arriving at the scene within twenty (20) minutes, failure to respond within this time frame shall be considered a violation of this chapter. Upon such violation, the Township shall have the right to contact the next available towing operator from the rotational list.

l. The Township of Nutley reserves the right to contact other towing services operators who may not be on the rotational list, within the sole discretion of the Director of Public Safety in the event of emergency, disaster, or unavailability of towing operators on the rotational list. Failure to respond within the prescribed time to three (3) consecutive calls shall result in suspension from the rotational list for up to sixty (60) calendar days.

m. The owner, or in the absence of the owner, the driver of the vehicle involved in an accident shall have the right to designate a towing operator of his/her choice. If the vehicle to be towed is situated in a dangerous position in the roadway, and the towing company selected has not responded within twenty (20) minutes from the time the driver is notified of this right, the Township reserves the right to contact the rotational towing company. If the Police Officer on the scene determines that immediate removal is a necessity for public safety, the driver or owner of the vehicle shall not have the right to designate a towing operator of his choice.

n. Employees of the towing operator, in responding to a call, shall request and be afforded police assistance during the course of providing towing, emergency road services, or removal of abandoned or accident vehicles when such employees find it necessary to turn around, back up, tow in the opposite direction of traffic or to cross the median.

o. A towing operator shall not permit a vehicle to be removed from the site of
a motor vehicle accident, the scene of a crime, or any other instance or situation without the prior approval and permission of the Police Officer in charge at the scene. A towing operator shall not place or remove any items from a vehicle, which is involved in a motor vehicle or criminal investigation without the expressed approval from the Police Officer in charge on the scene.
