.....

**STATEMENT**

The construction of the new traffic signal and installation of turning lanes at the intersection of Franklin Avenue and Centre Street required the removal of one parking space due to roadway and lane widths. The existing no stopping or standing area must be expanded to include the former parking space to permit southbound traffic to flow freely.

A review of accidents occurring at the intersection of Passaic Avenue & Harrison Street indicated that a major contributing factor was vehicles parked close to the intersection creating sight obstructions. Extending the statutory prohibition alleviates this condition.

The reconstruction of William Street in the vicinity of the municipal parking lots and concerns for traffic and pedestrian safety by the parking lots and senior buildings resulted in the William Street prohibition.
