

# TOWNSHIP OF NUTLEY CHIMNEY LINERS

\*\*\*\*\*

## You must obtain liner information and sizing chart information

Worksite Location: \_\_\_\_\_

1. Home many appliance (boilers, water heaters, or furnaces) will be connected to the liner? \_\_\_\_\_
2. BTU input of each appliance and total \_\_\_\_\_ + \_\_\_\_\_ + \_\_\_\_\_ + \_\_\_\_\_ = total BTU's \_\_\_\_\_. Additional lines may be added for total number of devices
3. Fuel type: (circle one) oil / gas / other \_\_\_\_\_
4. Material of liner: (circle one) stainless / aluminum
5. Size of appliance vent (C) \_\_\_\_\_
6. Size of liner (D) \_\_\_\_\_
7. Height of chimney (H) \_\_\_\_\_
8. Length of connector (L) \_\_\_\_\_
9. Type of connector: (circle one) single / double
10. Rise of the vent connector (R) \_\_\_\_\_
11. Is the appliance (circle) natural vent / fan assisted
12. Attach manufacturer's cut sheet and calculation chart.

Refer to diagrams below

D- Diameter  
 C- Connector  
 H- Height  
 L- Lateral  
 R- Rise
