

## **KINNELON RECREATION DRAFTS AND WAITING LISTS**

The attached draft guidelines must be adhered to when coach's draft their respective teams. With regard to the recreation basketball leagues, each team should roster no more than 9 players. The last round of the draft should be suspended until approximately 1 week prior to scheduled practices. Coaches must not discuss their rosters until the final round of the draft is concluded. The last round will include players still left to be drafted including enough players from the waiting list to conduct only 1 round. Each coach will pick a number from a hat with the lower number going first. Any children left on the waiting list will remain on that list unless an opening is created because of a child quitting or any injury.
