

KINNELON RECREATION PLAYING UP

If a parent requests their child to play up within a Kinnelon Recreation sponsored program because their ability is superior to their peers, the following conditions must be met:

1. A written request from the parents.
2. Two letters from their child's prior coaches supporting the move to play up.
3. These exceptions must be approved by a majority vote by the recreation committee.

However, the above conditions may be waived for children playing up under the following circumstances:

1. A child was retained a grade.
2. A child is moved up one grade level because their parent is assigned a vacant head coaching position.
3. A parent of two children that are separated by one grade level. The younger child may play up only if the parent is assigned a head coaching position as verified by the recreation director.
