RECYCLING / GARDEN DEBRIS ZONE MAP

PICK-UP ZONES (Refer to monthly calendar for scheduled pick-up days)

Servicing the Township in eight (8) zones. They are as follows:

Zone 1- South of Route 4, West of Garrison Avenue, South of Cedar Lane, West of the Railroad.

Zone 2- South of Cedar Lane to Fort Lee Road, West of Teaneck Road to Bogota border/Railroad.

Zone 3- South of East Cedar Lane, East of Teaneck Road, South of Fort Lee Road to Ridgefield Park and Bogota borders.

Zone 4- East of the Railroad, between Route 4 and Cedar Lane/East Cedar Lane.

Zone 5- East of the Railroad, North of Route 4 to West Englewood Avenue/Genesee Avenue to Englewood border.

Zone 6- East of the Railroad to Englewood border, North of West Englewood Avenue/Genesee Avenue to Bergenfield border.

Zone 7- West of the Railroad, East of Sussex Road/Garrison Avenue to Cedar Lane/Bergenfield border.

Zone 8- North of Route 4 to Bergenfield/New Milford borders, West of Sussex Road to Hackensack border.

During emergencies or inclement weather, refer to the Township's website (www.teanecknj.gov), social media networks (facebook.com/teanecknjgov or twitter.com/teanecknjgov) and/or the Recycling Hotline (201) 837-1600 ext. 1946 for information! Stay informed with Nixle emergency text messages and police alerts to receive law enforcement, traffic, and/or emergency notifications. You can sign up through the Township website (www.teanecknj.gov) or Nixle.com.

RECYCLING / GARDEN DEBRIS

RULES & REGULATIONS

Recyclables should be placed curbside no earlier than 6 p.m. on the evening before your scheduled collection day and no later than 7 a.m. on the day of collection.

RECYCLING CONTAINER(S)

PLEASE USE YELLOW TOWNSHIP-ISSUED CANS FOR:

Commingled Recyclables:

Bottles (detergents, oil, salad dressing, milk jugs, water, etc.)
 Glass Bottles, Plastic Bottles 1 & 2 only
 Jars (peanut butter, mayonnaise, etc.)
 Containers (milk, yogurt, sour cream, take-out, cake, cookie, etc.)
 Juice Boxes (with foil inside)
 Tetra Pak Materials

Aluminum/Metal:

Soda Cans
 Cans (soup, food, coffee, etc.)
 Aluminum Foil

Due to changes in the worldwide recycling market, several items previously included as recyclables cannot be collected until further notice. A listing of all items is delineated below and should now be included with your garbage.

Plastics (3 - 7), non-toxic containers, cups, utensils, etc.
 Plastic Bags or Plastic Wrap
 Toys (no metal parts)
 Bubble Wrap
 Shrink Wrap
 Rigid Plastic (molded lawn chairs, buckets, toys, etc.)
 Anything else made of plastic
 Any Styrofoam Items (cups, egg cartons, packing materials, etc.)

PLEASE USE BLUE TOWNSHIP-ISSUED CANS FOR:

Paper:

Newspaper
 Magazines
 Catalogs
 Junk Mail
 Paper Bags
 Cardboard
 Paperback and Telephone Books
 Egg Cartons (cardboard only)
 Anything else made of paper

The following restrictions and criteria apply to other recycling containers used by residents for commingled recyclable material and garden debris pick-up:

- 1) Containers must be no larger than 32 gallons in size.
- 2) Containers must not have wide bottoms with narrow tops (i.e. pickle barrels).
- 3) Containers must have handles.
- 4) Containers must be made of either plastic or lightweight metal, not cardboard.
- 5) Filled containers must not exceed 50 lbs.
- 6) NEWSPAPERS/MIXED PAPER for curbside collection must be tied into bundles, not more than 12" high and secured with string, twine or cord.
- 7) Corrugated cardboard must be flattened and tied for curbside collection.

Batteries:

The Recycling Depot accepts only vehicle batteries. This material is not picked up curbside. For all other types of battery disposal, please refer to www.bcua.org.

White Goods:

Washers, dryers, refrigerators, freezers, hot water heaters, air conditioners, and other appliances are accepted at the Recycling Depot or pick up by appointment.

Electronics:

Computers, monitors, wires, cables, keyboards, computer mice, telephones, computer components, and household electronics (TVs, VCRs, DVD players, stereos, and microwaves) are accepted at the Recycling Depot. **Items such as TVs or radios in large wooden cabinets are not accepted.**

Used Motor Oil:

Residents are permitted to bring used motor oil to the recycling depot during normal hours of operation. The used oil cannot be mixed with any other fluid such as antifreeze.

GARDEN DEBRIS

Garden debris is collected curbside on a weekly basis starting March 31st through October 9th (please refer to the calendar). Grass, leaves and small plant material must be placed in either non-disposable containers or biodegradable paper bags, weighing no more than 50 pounds each. Branches and shrubs must be cut into lengths no greater than four feet and tied into bundles weighing less than 50 pounds each. Landscapers and lawn services must comply with these requirements. Material that is not properly contained will not be picked up. Garden debris brought to the Depot does not need to be containerized or tied, but must not be in plastic bags.

STORM DAMAGE DEBRIS

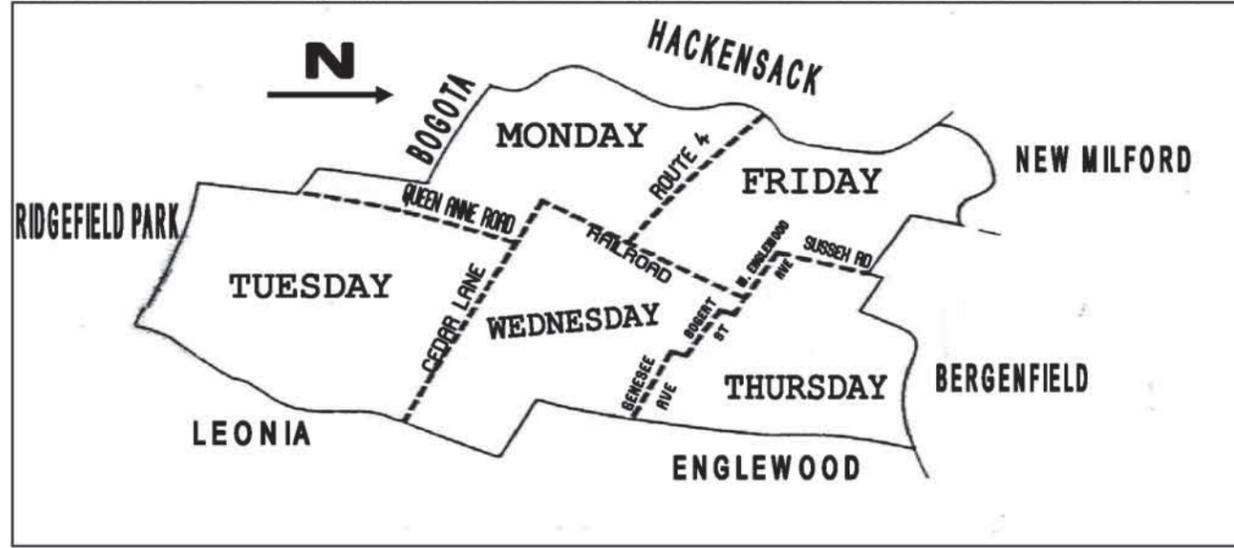

If tree parts fall during a storm, you must comply with the garden debris rules and regulations unless otherwise announced by the Township.

SIDEWALK REPLACEMENT / ROOT CUT

Residents are responsible for the maintenance of sidewalks adjacent to their property. In order to replace one's sidewalk, a permit must be obtained from the Engineering Department by the respective contractor or homeowner. Contractors are required to be licensed by the Township prior to any construction in order to perform concrete work in the public right of way. If tree roots are involved with the replacement of a sidewalk, the individual performing the work must contact the Public Works Department at (201)837-1600 ext. 1751 or 1728 to arrange for the Township to evaluate and/or grind the tree roots.

STREET SWEEPING MAP / SCHEDULE

STREET SWEEPING

In order to maintain the cleanliness of Township streets, residential streets are swept once per week; business district streets are swept five days per week. The street sweeping schedule is interrupted only by the mammoth task of leaf collection between October and December. During leaf pick-up season residential streets are swept on a schedule dictated by leaf accumulation.

The effectiveness of our street sweeping program depends solely upon the cooperation of residents. Street sweepers cannot get curbside when cars are parked on the street on a sweeping day. To do your part, please ensure your vehicle(s) are off the street on your respective street sweeping day, in accordance with the following schedule:

Monday	South of Route 4 and west of the railroad south of Cedar Lane and west of Queen Anne Road.
Tuesday	East of Queen Anne Road and south of Cedar Lane.
Wednesday	East of the railroad, north of Cedar Lane to Genesee Avenue / Bogert Street / West Englewood Avenue.
Thursday	North of Genesee Avenue / Bogert Street / West Englewood Avenue to the Bergenfield line, and east of Sussex Road to the Englewood line.
Friday	North of Route 4 and west of the railroad, south of West Englewood Avenue and west of Sussex Road to the Bergenfield and New Milford borders and to the Hackensack River.
NOTE:	Boundary lines between districts run down the center of the street.

SNOW EMERGENCY- NO PARKING

Parking of any vehicle on any portion of a public street is prohibited whenever snow is falling and the accumulation is such that it covers the public streets in the township and plowing is required, except where designated. The term "snow" includes sleet, hail and/or ice.

- ◆ Before storms begin, the main streets will be pre-treated with an environmentally safe solution that reduces the temperature at which snow freezes.
- ◆ During storms, snow plows will concentrate on keeping two lanes clear on every street.
- ◆ After storms, plows will return to widen the streets curb line to curb line.

PLEASE wait to do your final clean-up after the streets are cleared, which is typically two to six hours after the storm is over.

For additional off-street parking, residents are encouraged to use any of the municipal parking lots. Beginning six hours before snow fall is predicted to start and until 24 hours after snow fall has stopped, all hourly limits and meter fees in Township lots are waived. Please refer to the Township's website for the list of municipal parking lots and authorized parking areas.

During winter months, snow and ice must be removed from public sidewalks after cessation of a storm. Commercial property owners or tenants have 12 hours to clear sidewalks; residential owners have 24 hours. Additionally, people who own properties at corners and at mid-block crosswalks must shovel a pathway from their shoveled sidewalk to the plowed portion of the street so that pedestrians can cross safely. As a convenience, snow emergencies will be announced via Nixle text message alerts. (See Page 7 for information on how to sign up.)

STORMWATER REGULATIONS

A Guide to Healthy Habits for Cleaner Water

Stormwater pollution is one of New Jersey's greatest threats to clean and plentiful water. Pollution on streets, parking lots and lawns is washed by rain into storm drains, then directly to our drinking water supplies, as well as the ocean and lakes. Fertilizer, oil, pesticides, detergents, pet waste, grass clippings and more all end up in our water!

By making small, easy changes in our daily lives, we can keep common pollutants out of stormwater. This will produce cleaner water and save the high cost of cleaning up once water becomes dirty.

As part of New Jersey's initiative to keep our water clean and plentiful and to meet federal requirements, many municipalities and other public agencies, including colleges and military bases, must adopt ordinances prohibiting various activities that contribute to stormwater pollution. Breaking these rules can result in fines and other penalties.

As a resident or business owner, it is important to know easy things you can do every day to help protect our water:

Limit your use of fertilizers and pesticides:

- ◆ Perform a soil test to see if you need a fertilizer
- ◆ Do not apply fertilizers if heavy rain is predicted
- ◆ Research alternatives to pesticides
- ◆ Maintain a small lawn and keep the rest of your property or yard in a natural state with trees and other native vegetation that requires little or no fertilizer
- ◆ If you use fertilizers and pesticides, follow the instructions on the label on how to correctly apply it. Make sure you properly store or discard any unused portions.

Proper use and disposal of hazardous products:

- ◆ Hazardous products include some household or commercial cleaning products, lawn and garden care products, motor oil, antifreeze & paints
- ◆ Do not pour any hazardous products down a storm drain; storm drains are usually connected to local bodies of water and the water is not treated
- ◆ If you have hazardous products in your home or workplace, make sure you store or dispose of them properly. Read the label for guidance.
- ◆ Use natural or less toxic alternatives when possible
- ◆ Recycle used motor oil
- ◆ In the event of a hazardous material spill, contact the Teaneck Fire Department at (201) 837-7783.

Keep pollution out of storm drains:

- ◆ Municipalities and many other public agencies are required to mark certain storm drain inlets with messages reminding people that storm drains are connected to bodies of local water
- ◆ Do not let sewage or other waste flow into a stormwater system

Do not feed wild life:

- ◆ Do not feed pigeons, ducks and geese in public areas

Do not litter:

- ◆ Place litter in trash receptacles
- ◆ Recycle. Recycle. Recycle.
- ◆ Participate in community clean-ups

Dispose of yard waste properly:

- ◆ Follow the Township's yard waste rules; keep leaves and grass out of storm drains
- ◆ Use leaves and grass clippings as a resource for compost
- ◆ Use a mulching mower that recycles grass clippings into the lawn

Clean up after your pets:

- ◆ Use newspaper, bags or pooper-scoopers to pick up waste.
- ◆ Dispose of wrapped pet waste in the trash; Never discard pet waste in a storm drain

Contact Information

For more information on storm water related topics, visit www.njstormwater.org or contact the NJ Department of Environmental Protection, Municipal Storm Water Regulation Program at (609) 633-7021. Additional information is also available at the US Environmental Protection Agency websites:

www.epa.gov/npdes/stormwater
www.epa.gov/nps

STREET LIGHT OUTAGES

Residents can report street light outages by calling PSE&G at 800-436-7734 or by submitting a service request at www.teanecknj.gov or by calling the Teaneck Police Department at (201) 837-2600. When calling, please have location and pole number available.

PICK UP AFTER YOUR DOG

Residents are reminded that under Township of Teaneck Code, Chapter 6, Article 3, Section 6-28, you must pick up after your dog and dispose of such waste immediately and in a sanitary manner. This includes both public and private property. Dogs being walked in public must be curbed and the person walking the dog must carry a suitable method of waste disposal. Dogs must be properly leashed or restrained at all times when being walked. Furthermore, dogs must be licensed with the Health Department and have a current rabies vaccination. For further information, please contact the Health Department at: health@teanecknj.gov or (201) 837-1600 ext. 1500.

PHELPS PARK IS GOING TO THE DOGS!

The fenced-in dog park within Phelps Park off River Road is open to the public and their four-legged friends. Dogs running off leash in the fenced-in areas must be licensed and have all up-to-date shots. Dogs must wear collars and identification tags while in the park. Of course, owners must clean up after their dogs. According to Township of Teaneck Code, Chapter 27, Section 27-3, dogs younger than four months are barred, along with dogs determined to be aggressive. Owners will be legally responsible for any damage or injuries caused by their dogs.

RECYCLING PROGRAM UPDATE

Our enhanced recycling program that began in 2011 continues to be very successful for both the residents and the Township.

From January through September 2013, our total collection of recyclable commodities increased approximately 13.5% from the previous year. Revenue collected for this period was over \$149,600, an increase of approximately 12.5% over 2012.

Residents took advantage of our new "used oil" drop off service. The township collected approximately 200 gallons of waste oil from January through September 2013.

In 2013, the Township placed 20 public recycling stations throughout our various business districts.

Furthermore, in 2013 the Township initiated a park recycling program through the placement of yellow recycling receptacles in Township parks.

Teaneck provides yellow and blue recycling receptacles to residents. The first receptacle is free while the second is available for a nominal fee. Additional recycling cans and lids can be purchased at the Public Works facility. The 20-gallon blue recycling can is \$15 while the 32-gallon yellow recycling can is \$20. The price for both sized lids is \$7.

WHITE GOODS PICK UP

Public Works offers free "white goods" pick up curbside by appointment. White goods are items such as washing machines, dryers, refrigerators, freezers, hot water heaters, air conditioners, and other appliances. To make an appointment, please call (201) 837-1600 ext. 1707.

ONLINE TAX PAYMENTS

The Township offers convenient services for tax payments. Property owners can visit www.teanecknj.gov and click on "Pay Taxes" to remit payment for their quarterly property taxes. E-Check and credit card payments can only be made via the Internet.

A convenience fee charged by the service provider will be incurred by the user for each transaction. The fee for using an E-Check is a flat \$1.05 per transaction. The fee for using a credit card is 2.95% of the transaction amount. The fee for using a debit card (other than a Visa debit card) is the same fee as using a credit card. The convenience fee for Visa debit cards is a flat \$3.95 per transaction.

SNOW REMOVAL REGULATIONS

As per Township of Teaneck Code, Section 32-6, residents, property owners, and managers must remove snow and ice from public sidewalks in a timely fashion. Commercial property owners/tenants must remove such within 12 hours after snowfall stops. Residential property owners/tenants have up to 24 hours after snowfall stops to remove snow and ice. In addition, walkways to the entrances of any properties should be cleared in a timely fashion to allow emergency personnel and mail delivery carriers safe and clear access to the premises. Now is a great time to make sure that you have sturdy shovels, working snow blowers, snow shoveling agreements, and plenty of rock salt before the next snowfall.

THS FORUM SNOW REMOVAL

If you are looking for reasonable rates and reliable workers, the students at Teaneck High School are available during the winter months to shovel snow for local residents. If you are interested, please call the FORUM at: (201) 862-1200 ext. 6283.

PET LICENSES

 The Health Department would like to remind dog and cat owners that licensing begins on January 2, 2014 for dogs and April 1, 2014 for cats. You will have until February 28, 2014 to renew dog licenses and until May 31, 2014 to renew cat licenses. The fee is \$13 per non-spayed or non-neutered animals and \$10 for those that are spayed or neutered. After the respective deadline dates, a \$15 late fee will be added. Personal checks are the preferred method of payment and should be made payable to the Township of Teaneck. Residents who have new animals or who need renewal applications may obtain one online at www.teanecknj.gov under Health Department Documents & Forms or by calling (201) 837-1600 ext. 1500. Free rabies shots can be arranged at the Teaneck Animal Clinic & Spa by calling (201) 530-5833. Pet owners should note that rabies shots that expire prior to February 1, 2015 are NOT valid for licensing purposes.

HEAT REGULATIONS

Landlords should be aware that beginning the 1st of September until the 1st of June each year, they are required to maintain the following as per Township of Teaneck Ordinance 21-31 and 21-32:

Heat must be furnished for every occupied room in your dwelling so that the minimum temperature is 70 degrees Fahrenheit between 6am and 11pm and a minimum temperature of 65 degrees Fahrenheit between 11pm and 6am or whenever the street temperature falls below 55 degrees Fahrenheit. You must also contact the Health Department whenever a breakdown occurs requiring a repair to the heating system.

This is also a great time to install carbon monoxide detectors and smoke detectors. These devices can be purchased at any local hardware store or home supply center. If you have any questions, please contact the Teaneck Health Department at (201) 837-1600 ext. 1500 or health@teanecknj.gov.

COMMUNITY EMERGENCY RESPONSE TEAM

The Township is organizing a volunteer Community Emergency Response Team (CERT). The CERT process is designed to identify, train, and deploy a group of community volunteers to support the work of police, fire, and Office of Emergency Management personnel.

Using training learned in the classroom and during exercises, CERT members can assist others in their neighborhood or workplace following an event during which professional responders are not immediately available to help. CERT members also are encouraged to support these emergency response agencies by taking a more active role in emergency preparedness projects in the community.

If you are interested in becoming a Teaneck CERT volunteer, you can download an application from the Teaneck Township website (teanecknj.gov). Copies also are available at the Municipal Building (818 Teaneck Road) or in the "Township of Teaneck Resident Preparedness Guide for Emergencies" (Page 23), which was sent to all residents in late 2013.

BE A GOOD NEIGHBOR
Remember to check on the elderly and physically challenged during emergencies and inclement weather.

GOOD MORNING CHECKUP PROGRAM
Administered by the Teaneck Fire Department, this program is designed to assist elderly and shut-in residents. On a daily basis, the department contacts participants to determine their well-being. Please contact the Teaneck Fire Department at (201)808-8080 to sign up.

ADOPT A SENIOR PROGRAM
As a result of the recent super-storms, power outages and devastation that have hit our area, the time has come for greater awareness and concern for our neighbors. In order to meet the needs of our community, the Township of Teaneck is in the process of establishing an Adopt-A-Senior Program. Would you like to volunteer to assist seniors or other physically challenged persons in the event of an emergency? The Township is seeking individuals for this community based program who would be interested in working to supplement the town's emergency response capacity as part of our new Community Emergency Response Team (CERT). The primary responsibility of these volunteers will be to contact (phone/visit) registered seniors and/or physically challenged persons during a storm or emergency to ensure their well-being.

If you are a senior or physically challenged person who lives alone and/or do not have family, friends or neighbors to assist you in the event of an emergency, this program could be beneficial to you. Volunteers, seniors or the physically challenged interested in participating in this community based program should contact the Township Human Resources Department at (201)837-1600 ext. 1651 to register.

EMERGENCY PREPAREDNESS SEMINARS
Seminars will be held on Tuesday, February 4, Thursday, May 8, Thursday, August 7, and Thursday, November 6 at Police Headquarters, 900 Teaneck Road, 7 p.m. Pre-registration is not required. Please contact the Community Policing Bureau at (201) 837-8759 for further information.

LET'S MOVE INITIATIVE
Let's Move is an initiative of First Lady Michelle Obama to help children get fit, improve lifestyle choices, and to eat better. The program offers municipalities medals for achieving goals in the five different categories. Medals are achieved by providing information based on programs run in five different categories. These five categories include the following:

- Goal 1:** Start Early, Start Smart– incorporation of nutrition, physical activity, etc. programs for children, especially those in early care and lower grades
- Goal 2:** My Plate, Your Place– display of My Plate posters in municipal and county venues where food is sold or served
- Goal 3:** Smart Serving For Students– provision of healthy food choices in schools, especially for the breakfast and lunch programs
- Goal 4:** Model Food Service– improve healthy, affordable foods by implementing food service with the *Dietary Guidelines for Americans*
- Goal 5:** Active Kids at Play– increase physical activity by mapping local play areas and parks, and increasing locations that can be used to increase physical activity

Several websites tied to this program are the *Let's Move* website and the *Dietary Guidelines for Americans* website and others (see below):

1. healthycommunitieshealthyfuture.org
2. health.gov/dietaryguidelines
3. choosemyplate.gov/dietary-guidelines.html
4. nutrition.gov/smart-nutrition-101/dietary-guidelines-americans
5. cnpp.usda.gov/FGPGraphicResources.htm

Teaneck is one of only 11 municipalities in New Jersey to participate in this initiative. So far, Teaneck has received a total of six medals (two gold, two silver, and two bronze).

Township of Teaneck and Teaneck Board of Education officials are sponsoring this initiative to provide necessary programming, including resources to reduce obesity, create healthier lifestyle choices, to increase physical activity, and healthier eating habits amongst children. Parents, grandparents, and guardians also are targets of the program since they are the caregivers, providers of food and nutrition, as well as the ones who monitor physical activity or the lack thereof.

We are continuing to work with other local agencies, schools, hospitals, caregivers, and local merchants to provide better food choices and opportunities to increase physical activity.

Go to the following website for a map of local play areas, parks and areas for outdoor recreation in our community: <http://bit.ly/teaneckplaymap>

You also can go to the following website for the Healthy Recipe of the Week, as provided by the Bergen County Department of Health: <http://bit.ly/bchealthyrecipe>

POWER OUTAGE TIPS

BEFORE AN OUTAGE

- ◆ Check flashlights and battery-powered portable radios to ensure that they are working and that you have extra batteries. A radio is an important source of weather and emergency information during a storm. Inexpensive weather radios that broadcast automatically in the event of an alert can be purchased at various retailers.
- ◆ Make sure that your home is properly insulated. Caulk and install weather-stripping on doors and windows to keep cold air out.
- ◆ Install storm windows or cover windows with plastic from the inside to provide insulation.
- ◆ To prevent pipes from freezing, wrap them in insulation or layers of newspaper covered with plastic to keep out moisture.
- ◆ Let faucets drip a little to prevent freezing.
- ◆ Know the location of your water shutoff valves.
- ◆ In the event that the water supply may be affected, fill your bathtub and spare containers with water. Water in the bathtub should be used for sanitation only—pouring a pail of water from the tub directly into the toilet bowl will flush the toilet.
- ◆ Set your refrigerator and freezer to their coldest settings. During an outage, do not open the fridge or freezer doors; food can stay cold in a full refrigerator or a half-full freezer for up to 24 hours. Full freezers can stay cold for up to 48 hours! Just remember to reset the fridge and freezer back to normal once power is restored.
- ◆ If you have medication that requires refrigeration, check with your pharmacist for guidance on proper storage during an extended outage.
- ◆ Review the process for manually bypassing an electric garage door opener.

DURING AN OUTAGE

- ◆ Dress for the season, wearing several layers of loose-fitting, lightweight, warm clothing rather than one heavy layer of clothing. Outer garments should be tightly woven and water-repellent.
- ◆ Mittens are better than gloves.
- ◆ Wear a hat: most body heat is lost through the top of the head.
- ◆ Cover your mouth with a scarf to protect your lungs.
- ◆ Watch for signs of frostbite: loss of feeling and white or pale appearance in extremities such as fingers, toes, ear lobes, or the tip of the nose. If you see signs of frostbite, seek medical help immediately.
- ◆ Watch for signs of hypothermia: uncontrollable shivering, memory loss, disorientation, incoherence, slurred speech, drowsiness and apparent exhaustion. If symptoms are detected, get the victim to a warm location, remove any wet clothing, and warm the center of the body first. If the victim is conscious, give warm, non-alcoholic beverages. Seek medical help as soon as possible.
- ◆ In order to protect against possible voltage irregularities that can occur when power is restored, unplug all sensitive electronic equipment, including TVs, VCRs, stereos, microwave ovens, cordless telephones, computers, answering machines and garage door openers.

AFTER AN OUTAGE

- ◆ Be extra cautious if you go outside to inspect for damage after a storm. Downed or hanging electrical wires can be hidden by snowdrifts, trees, or debris and may be live. Never attempt to touch or move downed lines, and keep children and pets away from them.
- ◆ Check in with and help your neighbors, especially the elderly and physically challenged.
- ◆ Stay indoors until downed power lines are secured.
- ◆ Do not touch anything power lines are touching such as tree branches or fences. Always assume a downed line is a live line. Call your utility company to report any outage-related problem.

DANGERS OF CARBON MONOXIDE

UNDERSTANDING THE RISKS

What is carbon monoxide?

- ◆ Carbon monoxide, or CO, is an odorless, colorless, and toxic gas. Because it is impossible to see, taste, or smell, CO can kill even before you are aware it is in your home. At lower levels of exposure, CO causes mild effects that are often mistaken for flu symptoms, including headaches, dizziness, disorientation, nausea, and fatigue. The effects of CO exposure can vary greatly from person to person depending on age, overall health, and the concentration and length of exposure.

Where does carbon monoxide come from?

- ◆ CO gas can come from several sources, such as gas-fired appliances, charcoal grills, wood-burning furnaces or fireplaces, and motor vehicles.

Who is at risk?

- ◆ Everyone is at risk for CO poisoning, though medical experts believe that unborn babies, infants, children, senior citizens, and people with heart or lung problems are at the greatest risk.

PROTECT YOURSELF & YOUR FAMILY FROM CO POISONING

- ◆ Install at least one carbon monoxide alarm with an audible warning signal near the sleeping areas and outside individual bedrooms. Choose an alarm that is listed by UL (Underwriters Laboratories). Carbon monoxide alarms measure levels of CO over time and are designed to sound an alarm before an average, healthy adult would experience symptoms. It is very possible that you may not be experiencing any symptoms when you hear the alarm, but that does not mean that CO is not present.
- ◆ Have a qualified professional check all fuel-burning appliances, furnaces, venting, and chimney systems at least once a year.
- ◆ Never use your range or oven to help heat your home.
- ◆ Never use a charcoal grill or hibachi inside your home or garage.
- ◆ Never use a generator inside or in close proximity to your home.
- ◆ Never keep a car running in a garage. Even if the garage doors are open, normal circulation will not provide enough fresh air to reliably prevent a dangerous buildup of CO.
- ◆ When purchasing an existing home, have a qualified technician evaluate the integrity of the heating and cooking systems, as well as the sealed spaces between the garage and house.

The presence of a CO alarm in your home can save your life!

continued on page 10

DANGERS OF CARBON MONOXIDE (CONTINUED)
FROM PAGE 9)

WHAT DO I DO IF MY CO ALARM GOES OFF?

- ◆ Call 911 immediately, and be sure to tell them how many people are feeling ill and what their symptoms are.
- ◆ Evacuate all occupants immediately.
- ◆ Do not re-enter the home without the approval of a fire department representative
- ◆ Call a qualified professional to repair the source of the CO

PROPERTY MAINTENANCE CODE

The Township of Teaneck reminds all residents and property owners to comply with the Property Maintenance Code, Sec. 29A-9(i)(c) regarding the numbering of homes and lots:

"The number so assigned to each building shall be displayed by the owner or occupant so that they can easily be read by a person seated in a vehicle on the abutting street which is named in the address. Each house number: shall be in Arabic numerals; shall be at least five feet above grade; shall be mounted either above or to the side of the entrance door or on a post or other suitable holder if same is relatively near to the walkway affording access to the building, except that if the building is set so far back from the abutting street that the number cannot be read by a person seated in a vehicle on the abutting street, then the number must be placed on a post so that it can be so read; shall not be obstructed by shrubs or other materials; and shall be in a contrasting color to its background. All commercial buildings that have more than one entrance must have such numbers adjacent to each door."

TOWNSHIP EXTENDS MUNICIPAL BUILDING AND RODDA CENTER OFFICE HOURS

Beginning on Monday, January 6, 2014 the Township of Teaneck Municipal Building and Richard Rodda administrative offices will be open five days a week for the following hours:

Monday, Wednesday, Thursday, Friday
8 a.m. to 5:15 p.m.

Tuesday
8 a.m. to 7 p.m.

DAYLIGHT SAVINGS TIME DATES

Daylight Savings Time will begin on **Sunday, March 9, 2014** and end on **Sunday, November 2, 2014**. Remember that when Daylight Savings Time begins, you set your clock an hour ahead. When it ends, you set your clock an hour back.

RECREATION DEPARTMENT NEWS

Coming in 2014 online services for program registration and facility reservation!

BUILDING PERMITS 101

PLAN AHEAD FOR YOUR SPRING PROJECTS

The time to start planning for your spring home improvement projects is now. While most homeowners are enjoying the sights of a winter wonderland, savvy residents with foresight are planning for the construction of their new decks, patios, pools, or additions. Doing one's homework is a key factor in realizing an enjoyable, cost-effective project.

PROPERTY SURVEYS

All projects that involve physical changes to your property will require the submission of an accurate property survey. Start early in the planning process to locate your survey and verify that it shows all improvements on the property. This survey must show not only the outline of the house but also the driveway, all walkways, mechanical equipment units, swimming pools, sheds, detached garages, etc. These surveys may only be prepared by a surveyor licensed in New Jersey. The property survey will be used to show location of the proposed construction, verify distance from the property line to the construction, and to calculate the percentage of the lot covered by improvements. When your project is completed, have your survey updated so you can be ready for the next project.

IT ALL STARTS WITH ZONING

Decks, patios, pools, and additions all require a Zoning Permit prior to installation. An application for a zoning permit can be obtained from the Building Department or on the Township's website. Instructions for completing this application are included with the form. It is recommended that you call the Building Department and schedule a meeting with the Zoning Officer early on in the planning process. You must bring a copy of your survey with you so the Zoning Officer can provide development requirements tailored to your property. Based on the volume of applications submitted to the office, it may take up to 10 business days to review your application, so please plan ahead. When your project complies with all Township development regulations, your application will be approved and you will be issued a Zoning Permit. Now you are ready for the next step.

TELL US WHAT YOU WANT TO BUILD

Decks, pools, and additions all require construction permits issued under the New Jersey Uniform Construction Code. The applications for these projects can be obtained from the Building Department, from the Township website, or through the State Department of Community Affairs' Division of Codes and Standards website (www.state.nj.us/dca/divisions/codes). These applications ask for technical information about how your project will be constructed. Your architect or contractor can provide information necessary for completing the forms. Here again, Building Department staff are available to discuss your project, either in person, on the telephone, or by email. Staff members can let you know what codes need to be met and what drawings need to be submitted. Plan ahead: Based on the volume of applications submitted to the office and the complexity of your project, it may take up to 21 business days to review your application. Some projects involve review by the Building, Electric, Plumbing, and Fire Inspectors. When your project complies with all of the State codes, your application will be approved and you will be issued a Construction Permit.

GETTING A SHOVEL IN THE GROUND

Finally, permits in hand, construction can begin. Don't forget to call for your progress inspections. Either the homeowner, architect, or contractor can assume the responsibility for calling for inspections. These inspections provide assurance that your project is being built in accordance with state codes. Again, plan ahead: There may be many other projects under construction at the same time, although with a full-time inspection staff, many inspection requests may be accommodated the next business day!

CLOSING IT ALL OUT

Final inspections must be performed and a Certificate of Occupancy must be obtained prior to using your new space. The safety of the people using your new deck, pool, or addition is our primary concern.
