Codes Enforcement Officer Booth has drafted legislation which has been reviewed by the Town Attorney. Discussion now ensued whether to adjust the payback amount with Councilman Messa introducing the following Resolution; seconded by Councilman Cittadino:

Speed limit reduction – Status; Snowden Hill Road

Councilman Messa questioned the status of his December 2017 inquiry for a lower speed limit along a section of Snowden Hill Road. [Note: At the December 13, 2017 Town Board meeting, the Police Chief stated that a traffic study would need to be done by the NYS Department of Transportation, and that he would request the traffic study.] The

Town Clerk recalled that a particular form is necessary to initiate the study (TE 9a) jointly with the Oneida County Department of Public Works. With regard to School Bus signs, the Highway Superintendent informed Councilman Messa that he could help in the proper placement of such signs.

Street Lights – Routes 5 – 8- 12- 840

Councilman Reynolds initiated discussion on the issue of lights at the Routes 5, 8, 12, and 840 interchange, and more particularly the lack of lights. Those lights have been out for an extended period of time, and he thought at one time the City of Utica did not want to pay for the lights anymore and had them shut off. Although he is aware the lights are owned by the City, the City’s action affects the Town of New Hartford. Councilman Reynolds believes the Town should petition the City to activate the lights because this is a high traffic area and a high accident area.

The Highway Superintendent provided information that the NYS Department of Transportation would be making changes in that specific interchange, including lighting, in next year’s projects.
