# NEWS RELEASE

## For Immediate Release

### SR 161/Cosgray Road Intersection Improvements and Traffic Pattern Changes

*The intersection of SR 161 and Cosgray Road in Union/Franklin Counties has been revised as part of a phased upgrade in preparation for the opening of the Dublin Green/Costco development in Jerome Township.*

*An interim improvement has been completed at the intersection, adding a westbound left turn lane from SR 161 to Cosgray Road. In addition, left turning movements from Cosgray Road to SR 161 have been eliminated. In order to go west (towards Plain City) from Cosgray Road, all traffic must turn right and make a U-turn within the SR 161 and Industrial Parkway roundabout. Signage on the route has been placed to safely direct vehicles.*

*This improvement is the first phase of a two phase approach to increase capacity and improve safety at this intersection, and is being 100% funded by the developer of the Dublin Green Retail Center. The second phase of this improvement will include a roundabout at the intersection which will serve as the permanent solution. The design and construction of the roundabout will be funded by a multi-jurisdictional public/private partnership between the development group, City of Dublin, Franklin County and Union County, and is scheduled to be completed in 2017.*

**Do not include anything below this line in the publication.)**
