For Immediate Release

County Engineer's Dept. Releases "2017 Program of Work"

Date: June 9, 2017

Union County Engineer Jeff Stauch announced today that the County Commissioners recently accepted the "2017 Work Program" for county roads and bridges.

"Safety is always a top priority, and this year's construction program will include nearly 20 projects aimed at making our roadways safer. These projects range from bridge maintenance to a \$1 million road resurfacing program. To help offset the ever-increasing construction material costs, every dollar of our sales tax revenue share is spent on road and bridge maintenance and construction," Stauch said.
