Keizer City Ordinance 2005-535 prohibits the parking of all vehicles in excess of 72 hours on any highway of this city or public right-of-way except when a permit is obtained for recreational vehicles. (Except for recreational vehicles, it is unlawful for any person to park any vehicle not designed for self-propulsion and which is not attached to a motor vehicle in excess of 48 hours on any highway of this city or public right-of-way.)

A recreational vehicle parking permit authorizes the parking of a recreational vehicle for up to 10 days from the date of issuance subject to the following criteria. The parking of a recreational vehicle by permit shall not create a hazardous, potentially hazardous or unlawful parking condition such as:

- Parking on any street which is 30 feet or less in overall width
- Parking in such a manner that interferes with the safe passage of other vehicles
- Parking in a cul-de-sac, or on a curve, if the recreational vehicle cannot be safely and legally positioned against the curb or edge of roadway
- Parking a recreational vehicle that is more than 8 feet in overall width
- Parking within 50 feet of a traffic control device or an uncontrolled intersection
- Displaying a recreational vehicle parking permit when the vehicle is already in violation of a parking law or ordinance or to avoid a pending enforcement action

A recreational vehicle parking permit must be conspicuously displayed in the vehicle to which the permit is issued. The permit is in effect until the expiration date shown. In no case shall subsequent permits be granted for the parking of a recreational vehicle in excess of 20 days in a 90 day period. Three permits shall be the maximum granted in any 12 month period. Failure to comply with the requirements of Ordinance 2005-535 governing parking, or improper display of this permit in the vehicle to which it is issued, may result in a citation being issued and/or the vehicle being towed at the owner’s expense. All other parking laws must be observed. A recreational vehicle parking permit is subject to revocation if use of the permit creates a hazardous or unlawful parking condition.
