May 16, 2018

TO: CASSIA COUNTY RESIDENTS

FROM: CASSIA COUNTY ELECTIONS OFFICE

The 2018 Cassia County Primary Election results as reported, emailed, and posted to our Election Results page at: <https://www.cassiacounty.org/election-results> contained statistical data that was incorrect. Our Grandview Precinct ballot tabulated data as contained on a secured thumb drive was removed from the ES&S DS200 Tabulator at the polling location prior to the completion of the shutdown process after the polls were closed. That triggered a built-in safety feature of a security breach notification. The polling place election results from the Grandview Precinct printed prior to that shutdown then had to be manually entered into our hardened and secured computer at Election Central. Though the voted ballots and results were entered correctly and were accurate, some election statistics were not updated on the Election Day Results Report.

As a measure for accuracy, I conducted a new tabulation of all ballots from the Grandview Precinct under video surveillance on Wednesday morning, May 16, 2018. Those results matched 100% to the printed results from the precinct printout after the closing of the polls on Election Day. The voting tabulation data was then updated from the newly-created thumb drive, which corrected the erroneous statistical results for the overall election. ***The voted ballot results remain unchanged from what was reported on Election Day.***

These updated Election results remain UNOFFICIAL until the Canvass of the Vote by our Board of County Commissioners, which is scheduled to take place during the Board's regularly-scheduled meeting on Monday, May 21, 2018.

Sincerely,

A handwritten signature in black ink that reads "Joseph W. Larsen".

**Joseph W. Larsen**

**Cassia County Chief Elections Officer**

**Clerk of the District Court**

**Ex-officio Auditor/Recorder**
