

Dear Residents:

The Cassia County transportation plan is being conducted under the collaborative sponsorship of 10 local entities; Cassia County, Albion Highway District, Burley Highway District, Murtaugh Highway District, Oakley Highway District, Raft River Highway District, City of Albion, City of Declo, City of Malta, and City of Oakley. These entities all share a common desire to improve the transportation facilities within Cassia County (outside the City of Burley). Together, they agree that the overall purpose of the planning process is to effectively understand, plan for and implement improvements to the transportation facilities within their respective jurisdictions to meet the system and user needs over the next 20 years.

To fund the planning process, these entities successfully applied for and received a transportation planning grant from the Local Highway Technical Assistance Council (LHTAC). With these funds, they have contracted with PARAGON Consulting, Inc., to complete the transportation study. When completed, the transportation plan will provide both guidance and justification for future funding requests to support implementation of the Plan's recommendations.

Even though the City of Burley is not a participant of this plan (they have a separate plan) they will be involved with coordination of the County's Transportation Plan and the City's Transportation Plan.

To ensure the final Plan meets the needs of Cassia County residents we are requesting that you take a moment and share with us your thoughts on the existing condition of the roads and the service they provide as well as your thoughts on what you believe the roads and transportation system for Cassia County should provide in the future.

On behalf of the local highway jurisdictions in Cassia County, we appreciate your comments and interest in planning for continued improvements throughout the county.
