- D. Failure To Comply: If at any time the commissioners determine that any person or agency has failed to cooperate or carry out duties and responsibilities required by this chapter, the commissioners shall notify them of the deficiency, and designate corrective action and a deadline which will constitute compliance. If the violation is not satisfactorily corrected within five (5) days after the time outlined in the commissioners' corrective action plan, the commissioners shall initiate appropriate action, which may include quarantine, and charge to the violator all expenses including the hiring of necessary labor and equipment.
- E. Public Meeting: The commissioners shall, within sixty (60) days of receipt of a petition by an affected person, arrange for a public meeting to be held to review the county noxious weed program and allow public comment.

4-2-5: **NOTICE REQUIREMENTS:**

- A. Kinds Of Notices: Notices for control of county noxious weeds shall consist of two (2) kinds: 1) a general notice for control of county noxious weeds to be published in a newspaper for general circulation within the county; and 2) individual notices in a form prescribed by the commissioners.
- B. Duty To Comply; Publication Of Notice: Failure to publish the notice for control or to serve individual notices herein provided does not relieve any person of the responsibility to fully comply with this chapter. In all cases said publication notices shall be deemed legal and sufficient notices. The general notice for control shall be published at least one time between March 1 and April 30 and shall contain a list of both the Idaho noxious weeds and the county noxious weeds and shall specifically indicate those noxious weeds known to be in or imminently threatening the county, and shall stipulate the obligation to control.
- C. Individual Notices: Whenever the commissioners find it necessary to secure more prompt or definite control of county noxious weeds than is accomplished by the general notice, they shall cause individual notices to be served upon the person or agency owning and controlling such land, giving specific instructions when and how certain named weeds are to be controlled. The individual notice shall also contain information concerning the right to appeal pursuant to section 4-2-11 of this chapter.

- D. **Control By Commissioners:** Whenever the owner of any land on which county noxious weeds are present has neglected or failed to initiate control as required pursuant to this chapter within five (5) working days from receipt of any individual notice given pursuant to this section, the commissioners shall have such control methods as they deem appropriate used on such land, including, if necessary, destruction of crops, and shall advise the owner of the cost incurred in connection with such operation. The cost of any such control on private or public land shall be at the expense of the owner or agency. If the costs have not been paid to the control authority which performed the work within sixty (60) days, the commissioners may direct that suit be brought in a court of competent jurisdiction for the unpaid charges. Nothing contained in this section shall be construed to require satisfaction of the obligation imposed by the sale of property or to bar the application of any other available remedy. Amounts collected under the authority of this section shall be deposited to the county noxious weed fund.
- E. **Inability To Control By Owner:** When it appears to the commissioners that upon any land under its jurisdiction there is an infestation of county noxious weeds beyond the ability of the owner of such land to control, the commissioners may quarantine such land and immediately apply any necessary control of such noxious weeds including destruction of crops. The commissioners shall, prior to entry upon such land, request consultation with the owner to consider alternatives. Prior to entry, commissioners shall serve individual notice on the owner thereof of such quarantine and of the date of the proposed entry, and shall advise the owner of the completion of the control operation and the cost thereof. If the owner is not known or readily available, notice shall be deemed satisfied after eight (8) days from postmark of registered mail to the address of the last known address owner as shown on the assessment roll of the county. With consent of the agency involved, the commissioners may control county noxious weeds on state or federal land within the county, with or without reimbursement as determined between the agency and the county. In the case of divisions which have the responsibilities for roads, highways, airports, fairgrounds, landfills, and any other lands, it shall be the responsibility of the respective departments to budget for the control of county noxious weeds from their general maintenance and operation accounts.
- B. County Control Without Cost To Owner: Notwithstanding any other provisions of this chapter relating to payment of cost, when determined by the commissioners to be justified in the interest of an effective weed control program, the commissioners may control county noxious weeds on land in the county without cost to the owner. (Ord. 95-8-2, 8-21-1995)

Until such article is treated in accordance with the applicable regulations, it shall not be moved from designated premises except under and in accordance with the written permission of the commissioners, and the commissioners may hold or prevent its movement from such premises. The movement of any such article which has not been so treated, except in accordance with such written permission, may be stopped by the commissioners, and further movement and disposition shall only be in accordance with the commissioners' direction.

4-2-10: **SPECIAL MANAGEMENT ZONES:**

Modification Of Requirements: The commissioners may permit modification of specific county noxious weed control requirements in certain areas after they have consulted with or notified the landholders, have designated the area as a "special management zone", and have modified the county plan for control of that species in accordance with such special management zone provisions, after public notice of this modification.

- B. Plans From Landowners: The commissioners may propose to and accept plans from landowners for county noxious weed control which may be extended over a period of years if such plans include provisions to ensure against spread of the county noxious weed infestation under consideration.
