Motion Passed: Motion to move item VI Policy 5118 – Tuition before XIV Survey on Restorative Practices by Mrs. Janine Netto and a second by Laura Harris. Approved unanimously.

II. Public Participation
Student Ryan Callahan asked to add to the agenda a list of grievances prepared by students and parents regarding a student who has recently been added to the senior class. Student Alisa Mineo was also present to speak on this matter.

Mr. Callahan explained that Student A jumped a grade making him a senior. This student has had the opportunity of outside courses and unequal advantages to the other seniors in the class. The student’s QPA places his/her ranking at the top of the class. Mr. Callahan indicated that this student should not be allowed in the class ranking as he/she had opportunities not available to the students of the Derby School system. Mr. Callahan pointed to times when he attempted to register for AP classes but was not allowed due to prerequisites policies in the school system.

Ms. Mineo explained that while the student deserves acknowledgement of their achievements, the inclusion in the ranking will result in the remaining students in the class being knocked down a notch. This change in ranking may have a significant financial effect on obtaining scholarships as well as college acceptances. To her understanding, the exclusion from the ranking would have no effect on the student.

Mr. Gildea thanked the students for their participation in the meeting and explained that the matter will be referred to the Policy Committee. Existing policies will be reviewed to determine where or how they apply to the situation. It was noted that the handbook speaks to only students who have attended Derby High
School prior to the second semester of the junior year will be included in the senior ranking. The next meeting of the Policy Committee is October 9th at 6:30 PM.

Heather Callahan stated that she understood there was a Policy meeting on September 18th and was lead to believe action was happening without student/parent input. Mr. Gildea explained the process and invited all concerned to attend the next meeting.

Ms. Mineo questioned when a decision would go into effect. Mr. Gildea indicated that the timing would be part of the discussion.

Ed Wolfe stressed that a drop in rank can have a significant financial impact.

Candace LaBelle, 2nd grade teacher at Irving School approached the Board asking that they consider reviving the policy of tuition free school for staff member’s children. She explained how participating in this offering has allowed her the ability to be more involved in after-school and community projects because her children are here in the school system. She suggested that the offering could be a possible incentive for staff.

As part of the May/June initiative Healthy Mind, Healthy Heart, Healthy Family and with the new association with Aetna’ health plan the district is partnering with the City, Griffin Hospital and Aetna, and in the near future The Edge gym, with a health and wellness plan. Mr. Izzo indicated that the fiscal year is early in the process and he is getting encumbrances and grants in place. He noted that Special Education is already exceeding the budgeted amount. He is currently managing with the expectation that the Excess Cost reimbursement will cover a portion of the overage and there is expectation that a student will be leaving soon.

Dr. Conway noted that use of the VARCA building is being explored to see if it would be cost effective to provide the needed special education services in-house at the building. This is in the very early exploration stage. Mr. Izzo noted that the number of students needing services has increased significantly just since he started into the district until now.

Mr. Gildea requested a report detailing costs and functional data regarding the special education expenditures and student counts over the past five years. Mr. Izzo will compile and present to the Board.

As expressed by Ms. LaBelle in public portion, the practice of allowing staff to bring their children into the district ended in October 2014. If a request was not made by the cut-off date of October 2014, the child will not be allowed to enter the district. Students already in the district were allowed to remain. Mrs. Harris suggested that the Superintendent explore the interest by the staff in renewing this practice and the possible number of students that it would involve. Members discussed further clarity in the language so as to insure that this practice would not negatively impact the budget significantly. They wanted the language to express that the student placement would be at the discretion of the Superintendent and the Board of Education. Language should express that the addition of the student would not result in increase in staff or school resources. The Policy Committee will continue to define the language at their next meeting.

She will use the data for her final chapter of her thesis. The results will not be identifiable but as some of the questions will be specific as to grade, years of service, gender, there may be minimal chance of identification.
