The Parks, Recreation, and Community Enhancement Committee Meeting was held on July 11, 2011, at 12:00 p.m. with Chairwoman Russell presiding. Members present were Mr. Anderson (arrived 12:11 p.m.), Mrs. Horsey, and Mr. Lewis. Mr. Hare was absent.

AGENDA ADDITIONS/DELETIONS
Mrs. Horsey moved for approval of the agenda, seconded by Mr. Lewis and unanimously carried.

Review of Active Recreation Area Plans - Dove View Apartments
Ms. Janelle Cornwell, Planner II, reviewed detailed information regarding the Recreation Plan for the Dove View Apartments. She noted that Dove View Apartments is being reviewed as a Site Development Plan and that the subject property consists of one (1) parcel of land totaling 6.8326 acres. The Site Plan is to permit the construction of three (3) residential buildings with 144 apartments. Two (2) of the buildings were partially constructed as a part of an expired Conditional Use Site Plan known as Dove View Planned Neighborhood Design - Senior Housing Option.

As part of the Site Plan review process for this project, Ms. Cornwell stated that the applicant has prepared a Conceptual Recreation Plan which illustrates how the Dove View development will provide recreation amenities in accordance with the design specifications described in Article 5, Section 10 of the Zoning Ordinance. The Plan indicates that 24,541 S.F. of land would be reserved as Active Recreation Area, which are in central locations on the site. She stated that the proposed amenities include a walking path with benches and picnic tables around the stormwater management pond, an area with horseshoe pits with picnic tables, and an area with a shuffleboard court, swing set, and picnic table.

Ms. Cornwell reminded members that the Active Recreation Area Plan must be reviewed by the Parks, Recreation, and Community Enhancement Committee for a recommendation prior to consideration of the Site Development Master Plan by the Planning Commission. She reviewed information from the submitted Plan (dated May 11, 2011) for the Active Recreation Area to be constructed, as follows:

<table>
<thead>
<tr>
<th>Required</th>
<th>Provided on Plan</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Active Recreation Area</strong> (Article 5, §10.515)</td>
<td>150 S.F. per dwelling unit or 10,000 S.F., whichever is greater, to be provided on site. 144 DU = 21,600 S.F. Provided: 24,541 S.F.</td>
</tr>
<tr>
<td><strong>Active Recreation Amenities</strong> (Article 5, §10.15)</td>
<td>Accessible</td>
</tr>
</tbody>
</table>
Active Recreation Amenities (Article 5, §10.15) | Age Oriented to Development | The walking area with benches and picnic; the horseshoe pits with picnic tables; and shuffleboard court with swing set and picnic tables would serve all ages.
---|---|---
Parked | The particulars of the proposed active recreation do not have associated parking needs.
Setbacks: 30 feet from residential lots and 25 feet from right-of-way for street | All of the active recreation areas are in compliance as required.
Landscaping | The project shows trees and landscaping around the site and within the various recreation areas.

Staff submitted the following comments and recommendations regarding the Active Recreation Area to be constructed:

1. The proposed plan meets the area requirements for the Active Recreation Area. The plan is required to provide 21,600 S.F. of Active Recreation Area and it is proposing 24,541 S.F. of Active Recreation Area.

2. Staff recommends approval of the walking path, benches, picnic tables, horseshoe pits, shuffleboard court and swing set.

3. Staff recommends denial of all of the grass area (as delineated on the plan) around the walking path as active recreation area as this area is part of the stormwater management area. The walking path itself is counted towards the active recreation area. The walking path is calculated by itself. (Article 5, Section 10.155) The area in the immediate proximity of the benches and picnic tables should count towards the active recreation area.

4. Staff recommends that one swing on the swing set be for a small child.

5. The following items should be included on the Plan to clarify the construction of the recreation area improvements:
   a. Provide a list of the proposed features on the Active Recreation Plan (i.e. the number of benches, picnic tables, etc).
   b. Revise the square footage of the shuffleboard area on Landscape and Recreation Plan Sheet to state 6,763 S.F.
c. Provide accessibility to one picnic table in both the horseshoe and shuffleboard areas.

d. Provide accessibility to one horseshoe pit and the shuffleboard court.

e. Identify the protective ground covering material under the swing set.

f. Provide a sidewalk connection from the sidewalk near the horseshoe pits area to the sidewalk at the end of the west side of the entrance drive.

g. Provide an accessible picnic table.

6. The applicant is reminded of the requirements for construction phasing of the recreation area as associated with the development of the residential units.

Article 5, §10.6 Construction phasing. The recreation and open space areas shall be completed in a proportion equal to or greater than the proportion of residential dwelling units completed, except that one hundred (100) percent of the recreation and open space areas shall be completed prior to issuing building permits for the final twenty (20) percent of the dwelling units proposed. Building permits shall not be issued for dwelling units unless the requirements of this section are met.

7. There shall be provisions which ensure that the common open space land (including active recreation area) shall continue as such and be properly managed and maintained. The developer shall either retain ownership and responsibility for maintenance of such open land; or provide for and establish one (1) or more organizations for the ownership and maintenance of all common open space i.e. a Homeowners Association. The organization shall be responsible for maintenance, insurance and taxes on the common open space.

a. Add a note on the Site Plan regarding who is responsible for maintenance, and insurance on the common open space.

8. In the event that major changes and revisions to the Site Plan occur in the finalization of the Site Plan, contact the Planning Office. Examples include reorientation of buildings, relocation of site components like stormwater management areas, and increases in floor area. These changes may require resubmission for review by the Development Advisory Committee, Planning Commission, or other agencies and commissions making recommendations in regards to the plan.

Mr. Garth Jones, Becker Morgan Group, indicated that, due to the close proximity to the Modern Maturity Center, it is anticipated that there will be a significant number of seniors residing at these apartments. He also confirmed the Group’s concurrence with staff’s recommendations.

In response to Mrs. Horsey, Mrs. Ann Marie Townshend, Director of Planning and Community Development, reminded members that the Modern Maturity Center had previously objected to a driveway connection between the two (2) sites; however, the Modern Maturity Center has agreed to a multi-use path for interconnection.
Mrs. Horsey moved to recommend acceptance of the Active Recreation Area Plan for Dove View Apartments, as presented and with the inclusion of staff’s comments and recommendations. The motion was seconded by Mr. Lewis and unanimously carried.

**Review of Active Recreation Area Plans - Lands of Downtown Dover Partnership - 120 S. Governors Avenue**

Ms. Janelle Cornwell, Planner II, reviewed detailed information regarding the Active Recreation Area Plan for the Lands of Downtown Dover Partnership (DDP) at 120 South Governors Avenue. She noted that the lands of DDP are being reviewed as a Site Development Plan and that the subject property consists of one (1) parcel of land totalling 1.7653 acres by metes and bounds. The Site Plan Master Plan is to permit the construction of two (2) buildings. The first building, located on South Governors Avenue, is a 47,042 S.F. mixed use building with 27 apartments and 11,874 S.F. of retail space on the first floor. The second building, located on South New Street, is a 34,896 S.F. residential building with 24 apartments.

As part of the Site Plan review process for this project, Ms. Cornwell stated that the applicant has prepared a Conceptual Recreation Plan which illustrates how the property located at 120 South Governors Avenue will provide recreation amenities in accordance with the design specifications described in Article 5, Section 10 of the Zoning Ordinance. The Plan indicates that 5,210 S.F. of land would be reserved as Active Recreation Area. The Active Recreation Areas are in central locations on the site. The proposed amenities include a garden area with a walking path and benches behind the South Governors Avenue building and a gazebo with picnic tables next to the South New Street building.

**South Governors Avenue**
The garden area with a brick walking path, benches, and grass area is 2,052 S.F. The area is accessible from the back of the mixed use building and is landscaped. There are five (5) benches proposed within this area.

**South New Street**
The gazebo with picnic tables and grass area is 3,158 S.F. The area is accessible from the side and rear of the residential building. The landscaped area includes four (4) picnic tables surrounding the gazebo.

Ms. Cornwell reminded members that the Active Recreation Area Plan must be reviewed by the Parks, Recreation, and Community Enhancement Committee for a recommendation prior to consideration of the Site Development Master Plan by Planning Commission. She reviewed information from the submitted Plan (dated June 17, 2011) for the Active Recreation Area to be constructed, as follows:

<table>
<thead>
<tr>
<th>Active Recreation Area (Article 5, §10.515)</th>
<th>Required</th>

Staff submitted the following comments and recommendations regarding the Active Recreation Area to be constructed:

1. The proposed plan meets the area requirements for the Active Recreation Area. The plan is required to provide 3,825 S.F. of Active Recreation Area and it is proposing 5,210 S.F. of Active Recreation Area.

2. Staff recommends approval of the walking path, three (3) benches, and two (2) picnic tables.

3. The gazebo is located within 25 feet of the right-of-way and is within 30 feet of a residentially used parcel. Upon consultation with the applicant, the gazebo will be removed from the plan.
   a. The removal of the gazebo does not impact the overall square footage of the Active Recreation Area.

4. Staff recommends the addition of paved patio/picnic with a grill area in the location of the gazebo (to be removed).

5. Staff recommends the reduction of two (2) picnic tables and the reduction of two (2) benches.

6. The following items should be included on the Plan to clarify the construction of the recreation area improvements:
   a. Provide a list of the proposed features on the Active Recreation Plan (i.e. the number of benches and the details of the items).
b. Remove the gazebo from the plan.

c. Revise the bench detail to have a divided bench.

d. Revise the fence to be an open fence as shown on the Architectural Elevations.

e. Ensure one (1) picnic table is accessible.

7. The applicant is reminded of the requirements for construction phasing of the recreation area as associated with the development of the residential units.

*Article 5 §10.6 Construction phasing. The recreation and open space areas shall be completed in a proportion equal to or greater than the proportion of residential dwelling units completed, except that one hundred (100) percent of the recreation and open space areas shall be completed prior to issuing building permits for the final twenty (20) percent of the dwelling units proposed. Building permits shall not be issued for dwelling units unless the requirements of this section are met.*

8. There shall be provisions which ensure that the common open space land (including Active Recreation Area) shall continue as such and be properly managed and maintained. The developer shall either retain ownership and responsibility for maintenance of such open land; or provide for and establish one (1) or more organizations for the ownership and maintenance of all common open space i.e. a Homeowners Association. The organization shall be responsible for maintenance, insurance and taxes on the common open space.

a. Add a note on the Site Plan regarding who is responsible for maintenance, and insurance on the common open space.

9. In the event, that major changes and revisions to the Site Plan occur in the finalization of the Site Plan contact the Planning Office. Examples include reorientation of buildings, relocation of site components like stormwater management areas, and increases in floor area. These changes may require resubmission for review by the Development Advisory Committee, Planning Commission, or other agencies and commissions making recommendations in regards to the plan.

In response to Mrs. Russell, Mrs. Cornwell indicated that, although there will be open grass areas, the recreation plan does not include any specific recreation facilities for small children. Mrs. Russell suggested that the owners consider providing recreational facilities for small children.

Responding to Mr. Lewis, Mr. Gregg Moore, Becker Morgan Group, stated that the fence is proposed to enhance architectural appearance; however, it will also provide a separation from the single-family neighborhoods. Mr. Moore stated that a stationary grill and pavers will be included to replace the gazebo.
For clarification, Mr. Moore explained that the DDP is attempting to facilitate the project by obtaining approvals from the Planning Commission and addressing questions and concerns of the Delaware Department of Transportation (DelDOT) and other agencies, etc., in order to offer the project for sale to a developer to build. DDP does not intend to construct the buildings; however, it is attempting to make the project attractive to developers.

Mr. William Neaton, Economic Development Director, reminded members that the concept for this project was a result of the Downtown Dover charrette process.

In response to Mrs. Horsey, Mr. Moore stated that the space is inadequate for a gazebo, even if a smaller structure were to be considered.

Mr. Moore confirmed concurrence with staff's recommendations.

Mr. Lewis moved to recommend acceptance of the Active Recreation Plan for Lands of Downtown Dover Partnership located at 120 S. Governors Avenue, as presented and with the inclusion of staff’s comments and recommendations. The motion was seconded by Mr. Anderson and unanimously carried.

Semi-Annual Report - Statistics Regarding Jobs and Businesses Gained and Lost in the City of Dover Since July 2010

Mr. William Neaton, Economic Development Director, reviewed the semi-annual report of employment statistics on the 14 largest employers in the Dover area and reminded members that this information is updated and presented to members on a semi-annual basis. He also reminded members that his office has established relationships with the management and human resources departments of these companies in order to track job growth or decline.

Mr. Neaton stated that he has visited many local businesses, and that (at the request of the previous City Manager, Mr. Anthony DePrima) Mrs. Lisa Gardner, Departmental Budget and Support Staff Supervisor, Public Utilities Department, has attended these meetings with him to discuss utility concerns. Mr. Neaton indicated that, in the course of these meetings, Dover Downs was the only business that relayed concerns regarding the cost of utility services.

Responding to Mr. Lewis, Mr. Neaton stated that Dover Downs has genuine concerns regarding the lack of revenues derived from gaming tables; however, current discussion regarding the possibility of layoffs and revenue concerns are the result of tax and fee burdens imposed by the State.

In response to Mr. Anderson, Mr. Neaton stated that a very large business intends to occupy the Wal-Mart facility in Dover and the structure is not expected to remain vacant for a significant length of time; therefore, the City should not be impacted financially. He agreed to discuss the possibility of a partnership to enhance economic development with representatives of Delaware State University, similar to the one that exists between the University of Delaware and the City of Newark.
UPDATES
The following updates were provided to members:

Puncheon Run Watershed Action Team and Flood Plain Mapping
Mr. Scott Koenig, Interim City Manager, Public Services Manager/Director of Public Works, advised members that since the last meeting of the Puncheon Run Watershed Action Team in March/April 2011, Mr. Eugene Ruane (former City Council member) has worked diligently to secure assistance from a local surveyor who was successful with a previous Letter of Map Amendment (LOMA) application and is providing that information to area residents to apply for amendment if they choose. He stated that some of the residents have moved forward with the process; however, it is being done privately. As a result, Mr. Koenig suggested that no further updates be provided since staff has achieved its original purpose. However, he assured members that staff will continue to work on flooding issues in the Puncheon Run Basin as development projects are submitted in that area, or if there are additional opportunities for subdivision or individual site retrofitting.

Mr. Lewis moved to recommend that the Update for the Puncheon Run Watershed Action Team and Flood Plain Mapping be removed from future agendas for the Committee. The motion was seconded by Mrs. Horsey and unanimously carried.

Planning and Funding for New Library
Ms. Margery Cyr, Library Director, advised members that the Governor's budget, which has been signed, provides $2.5 million for the construction of the new Dover Public Library. She noted that this brings the State's contribution to 100% at $10,584,357. Ms. Cyr stated that a $20,000 grant has been received from the Marmot Foundation. She indicated that the Capital Campaign Committee will launch the sale of memorial brick pavers for the new library later this week and that the pavers will cost $125 each. She provided members with promotional brochures regarding this program (Attachment #1). The Events Committee of the Capital Campaign is hosting a Summer Bash on July 30, 2011 at the Fordham Brewery in Dover (tickets for the event are $25 in advance and $35 at the door).

Ms. Cyr advised members that language was included in the Governor's budget to allow for the Department of Natural Resources and Environmental Control (DNREC) and the City of Dover to begin discussions about the purchase of the existing library building by DNREC. She stated that the State's Facilities Management team and DNREC staff have toured the building and are making arrangements for an appraisal of the property to be performed.

Responding to Mr. Anderson, Mr. Koenig stated that language was included in the State’s Bond Bill to begin consideration of the sale of the current library facility. A meeting has been scheduled to identify a boundary for property zoning and the appraisal will be performed subsequently. At that point, City Council would consider the appraisal and, if there is an agreement in principle on the sale of the property, those funds would be included in the FY 2013 State budget and the sale transaction would be anticipated in July or August 2012, immediately prior to the opening of the new Library.
Ms. Cyr stated that the construction of the new Library is projected for completion in June 2012, which would provide the City an opportunity to ensure systems are working, move property, organize, etc., prior to the grand opening scheduled in September 2012.

Ms. Cyr also advised members that fundraising continues to go very well. As of July 11, 2011, she stated that the Library is only $344,056 away from meeting their fundraising goal that would fully fund the new Library building, as approved by City Council in February.

**CDBG Program**

Mrs. Tracey Harvey, Community Development Director, reported the Status of FY 2010 CDBG Projects as of June 2011. She advised members that funding for the current fiscal year has not yet been received, noting that this is a new program year. She indicated that the approval letter from the Department of Housing and Urban Development (HUD) is typically received in late July/early August.

Mr. Clay Hammond, 505 Troon Road, (Chairman, Delaware Black Chamber of Commerce) noted that economic development has been a significant CDBG activity, although the City does not receive a large entitlement. He questioned if the use of CDBG funds could be expanded beyond housing to assist in economic development and providing jobs, etc. Responding, Mrs. Townshend stated that, although there is interest in funding these activities, dedicating funds is a “balancing act,” explaining that members must also consider other needs, such as shelter for the homeless, as well as the amount of funding that can be allocated for each category (15% cap for public service programs).

Responding to Mr. Anderson, Mrs. Harvey noted that the First Time Home Buyer Assistance Program is a City-wide effort based on a “first come - first served” approach, and that currently applicants are experiencing difficulty qualifying for mortgages.

Mrs. Harvey confirmed that the tour of the Housing Rehabilitation Program properties is scheduled for the Committee meeting to be held on August 8, 2011, and that more information would be forthcoming as details are finalized.

Mrs. Russell suggested that the City develop a form letter to be completed by homeowners to evaluate the program and the contractors utilized for rehabilitation projects. Responding, Mrs. Harvey stated that all work is guaranteed for one (1) year and if the homeowner has difficulty contacting the contractor, she typically becomes involved and ensures that all issues are resolved. In addition, she noted that homeowners receive warranties when there are window and/or roof replacements.

**Housing and Recovery Act of 2008 Funds (Neighborhood Stabilization Fund)**

Mrs. Tracey Harvey, Community Development Director, reviewed the Update on the Housing and Recovery Act of 2008 Funds (Neighborhood Stabilization Program).

**Dover Youth Advisory Committee**

Mrs. Russell reported that the City of Dover Youth Advisory Committee would be holding a “Fun Day for Youth” on July 30, 2011 at Schutte Park from 11:00 a.m. to 2:00 p.m. Vendors (other than food vendors) are welcome to participate at a cost of $25.
Mrs. Russell advised members that Ms. Olivia Lilje, Little Miss Delaware Sweetheart, attended a recent Youth Advisory Committee Meeting and was presented with a journal to be kept and maintained throughout her career.

Mrs. Russell stated that Ms. Kristen Dietz, Co-President of the Youth Advisory Committee, was recognized at a recent Committee meeting for her participation in an oratorical contest, where she represented three (3) states and achieved First Runner Up. Ms. Dietz was presented with a journal at a recent Committee meeting.

With reference to the youth in the community, Mr. William Neaton, Economic Development Director, indicated that the Downtown Dover Partnership has partnered with United Way for “First Friday.” He noted that 400 book bags with summer reading books were distributed to the youth during the event held on July 1, 2011. The next “First Friday” event will be the Annual Beach Party scheduled for August 5, 2011, on Loockerman Street and beach balls will be distributed. In addition, TD Bank will be attending and distributing summer reading program materials for the youth. Mrs. Russell requested that she be provided additional flyers promoting “First Friday” events.

Mr. Anderson suggested that there be more promotion of the Youth Advisory Committee’s “Fun Day” event utilizing free resources, such as the City’s Website.

Mrs. Russell indicated that a Youth Talent Show is also being planned by New Beginnings, the New Street civic association, and that she would provide further information as it becomes available.

**Dover SunPark**

Mr. Neaton advised members that there will be a ribbon cutting ceremony on August 17, 2011 at 1:00 p.m. for The Dover SunPark. He noted that all work has been completed, construction trailers are being removed, and that the testing phase has begun. He noted that commitment to utilizing local labor has been exemplary.

Responding to Mrs. Russell, Mr. Neaton suggested that anyone wishing to tour the facility should contact his office to arrange an appointment.

Prior to adjournment, Mr. Hammond noted that last year, there was a great deal of discussion by Council and Council Committees regarding the emerging gang problem in the community. As a result, the Delmarva Black Chamber of Commerce held a “Black Town Hall” meeting to focus on concerns in the African American Community, including disparities involving education, economics, health, etc., and to discuss the tremendous needs of the black community. He advised members that discussions have been held with Delaware State University and it has been determined that a needs assessment has not been performed in the African American Community. He requested that the Committee recommend support of such an assessment to determine the causes of these problems with a view toward developing solutions.
Responding, Mrs. Russell indicated that the Delaware Multicultural and Civic Organization (DEMCO) recently received a grant to conduct a community needs assessment (which was not targeted specifically to the African American Community) as it relates to education. Mr. Hammond stated that the needs assessment being requested goes beyond just education.

Mr. Lewis suggested that Mr. Hammond provide the Committee a presentation at a future meeting for further review and consideration of making such a recommendation to City Council.

Mrs. Russell explained that a formal request should be submitted for inclusion as an item on the Committee’s agenda. For clarification, Mr. Koenig indicated that all such requests should be submitted to the City Clerk’s Office.

**Mr. Lewis moved for adjournment, seconded by Mr. Anderson and unanimously carried.**

Meeting adjourned at 1:26 P.M.

Respectfully submitted,

Sophia R. Russell
Chairwoman

MEMORIAL BRICK PAVERS
at the new Dover Public Library

Give a gift that lasts forever!

DOVER PUBLIC LIBRARY
Dear Friend & Neighbor,

Now you can memorialize a friend, family member, or loved one forever through the creation of a Memorial Paver at the new Dover Public Library.

Your tax-deductible donation of just $125 will secure the naming rights to a handsome paver at the new library — but you must act now, before The 21st Century Campaign ends.

Your attractive, 4” x 8” brick will be engraved with the name and message you specify — three lines with up to 16 characters per-line.

Each paver donation will be fully tax-deductible and you will receive an acknowledgement for tax purposes.

Memorial Bricks will be securely placed in the front and rear entrances to the new Library where visitors will see them for decades to come.

A memorial brick is the perfect way to perpetuate the memory of someone important to you. It is a wonderful gift or tribute — and you can arrange it by simply completing the attached order form and returning it with your donation to the Dover Public Library.

With warm regards,

Margery Cyr
Director, Dover Public Library

Your donation will support the Library’s new building campaign.
The new facility will feature:

- A wonderful children’s library where generations of young people will be inspired to read and learn.
- A state-of-the-art Job Center to teach critical technology skills and help people find employment and start small businesses.
- Large community meeting rooms
- More than 180 safe, convenient parking spaces.
- A new Teen Center where Dover’s students can learn and socialize.

Please note — we have a limited number of Memorial Pavers available — so please act now.

We don’t want you to miss being part of this important opportunity.

All this is possible with your help!

Dover Public Library Memorial Brick Paver Order Form

Dover Public Library is proud to offer this opportunity to permanently honor or memorialize or honor family and friends while supporting the new library. Each 4”x 8” brick will be engraved with your personal tribute and displayed on the grounds of the center in perpetuity. Each brick is $125.

Enclosed is my check for:
